March 31, 2025

This wrap fee program brochure provides information about the qualifications and business practices of Strategic Advisers LLC ("Strategic Advisers"), a Fidelity Investments® company, as well as information about Fidelity Managed FidFolios®.

Throughout this brochure and related materials, Strategic Advisers refers to itself as a "registered investment adviser" or as being "registered." These statements do not imply a certain level of skill or training.

If you have any questions about the contents of this brochure, please call us at 800.544.3455. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission ("SEC") or by any state securities authority.

Additional information about Strategic Advisers is available on the SEC's website at adviserinfo.sec.gov.

SUMMARY OF MATERIAL CHANGES

The SEC requires registered investment advisers to provide and deliver an annual summary of material changes to their advisory services program brochure (also referred to as the Form ADV, Part 2A Brochure).

The section below highlights only material revisions that have been made to the Fidelity Managed FidFolios Form ADV, Part 2A Brochure (the "Program Brochure") from March 28, 2024, through March 31, 2025. Clients and prospective clients can obtain a copy of the Program Brochure without charge by calling 800.544.3455, by visiting Fidelity.com/information, or by visiting the SEC's website at adviserinfo.sec.gov. Capitalized terms are defined in the Program Brochure.

Material Changes

- Effective March 31, 2025, Fidelity Personal and Workplace Advisors LLC ("FPWA") merged into Strategic Advisers. FPWA offered the Program from July 2018 through March 2025. Numerous edits to this Program Brochure have been made to incorporate the functions previously performed by FPWA with respect to the Program, including but not limited to fee information, account opening and closing procedures, and the provision of financial planning services.

Other Changes

- Clarifications have been made with respect to the application of environmental sustainability criteria for Environmental Focus Strategy Program Accounts, described under "Discretionary Investment Management Services—Investment Strategies."
- Certain minor revisions have been made to "Foreign Exposure," "Risks and Limitations Associated with Tax-Smart Investing Techniques," and "Cybersecurity Risks," and new risk information has been added in "Investment Research Risks and Limitations," each under "Material Risks."
- Certain minor revisions have been made to the text that describes Strategic Advisers' affiliates in "Other Financial Industry Activities and Affiliations."
- "Brokerage Practices" has been updated to clarify how Strategic Advisers handles securities transactions to seek best execution and to provide clarifying information about trade aggregation and allocation and cross trading.

SERVICES, FEES AND COMPENSATION

Strategic Advisers is a registered investment adviser under the Investment Advisers Act of 1940 ("Advisers Act") and an indirect, wholly owned subsidiary of FMR LLC (collectively with Strategic Advisers and its affiliates, "Fidelity Investments," "Fidelity," "us," "our," or "we"). Strategic Advisers was formed in 1977 and offers a number of investment advisory programs, including Fidelity Managed FidFolios (the "Program") and provides a variety of investment management services, including discretionary portfolio management services to retail and institutional clients and nondiscretionary advisory services to certain institutional clients, including but not limited to Fidelity affiliates.

As described below, Fidelity Managed FidFolios is a digitally delivered separately managed account program in which clients hire Strategic Advisers and authorize us to retain one or more investment advisers ("sub-advisors") on their behalf to implement a selected investment strategy on a discretionary basis ("Program Services"). The Program offers eight investment strategies (each a "Strategy" and, collectively the "Strategies"):

- U.S. Large Cap Strategy
- Dividend Income Strategy
- International Strategy
- U.S. Large Cap Index Strategy
- International Index Strategy
- U.S. Total Market Index Strategy
- U.S. Low Volatility Index Strategy
- Environmental Focus Strategy

Each Strategy is designed to achieve a specific investment objective through investing in stocks. These Strategies seek to achieve their individual objectives while incorporating enhanced customization and tax-smart investing techniques for taxable accounts. Fidelity Managed FidFolios uses fractional share trading, which allows us to allocate a client's assets efficiently among hundreds of positions based on dollar amount rather than share size. Discretionary investment management is provided through one or more accounts (each, a "Program Account") made available to clients through the Fidelity Managed FidFolios website and Fidelity's mobile applications (the "Program website").

The Program is designed for clients who seek a personalized and professionally managed stock portfolio facilitated by a digital experience. To participate in the Program, clients must complete an online enrollment process and agree to accept electronic delivery of contracts, disclosure documents, prospectuses, trade confirmations, account statements, and other Program materials and regulatory documents ("Program documents"). Clients should not participate in the Program if they do not wish to interact digitally. Regular and continuous digital access is required to enroll in the Program and to access all related Program documents. Clients also have an obligation to maintain a current and accurate email address to ensure that they can receive their Program-related communications and/or Program documents. We reserve the right to terminate a client's participation in the Program if they request to unenroll from electronic delivery for Program-related communications and/or Program documents.

Discretionary Investment Management Services

The Program's Strategies generally provide an account consisting of individual stocks and/or American Depositary Receipts ("ADRs") (i.e., a single asset class). Like all portfolios that are composed exclusively of equity securities, these Strategies are expected to have increased risk and volatility as compared with an

account that holds a diversified mix of bonds, equities, and other investment types. Accordingly, clients should be comfortable with the risk of holding only equity securities in their Program Account. As part of our investment management services in the Program, we will obtain information regarding a client's financial situation, risk tolerance, tax situation, and investment horizon ("Profile Information").

Investment Strategies

Clients can choose from the following investment strategies:

The *U.S. Large Cap Strategy* invests in stocks and seeks capital appreciation and to outperform the S&P 500® Index over a full market cycle. The Strategy invests primarily in U.S. large-cap stocks but can also invest in securities not included in its index, including non-U.S. large-cap stocks, ADRs, real estate investment trusts ("REITs"), and exchange-traded products ("ETPs"). For taxable accounts, the Strategy seeks to enhance after-tax returns of Program Accounts through methods including but not limited to proactive tax-loss harvesting and deferring the realization of capital gains. Strategic Advisers has retained Fidelity Management & Research Company LLC ("FMRCo"), an affiliate of Strategic Advisers, to provide investment models (each a "Model Portfolio") that it will use in managing accounts enrolled in the Strategy. Strategic Advisers will blend Model Portfolios for multiple investment exposures (e.g., growth, value, and core equity) at its discretion based on market cycle implications and overall portfolio positioning.

The *Dividend Income Strategy* invests in stocks and seeks capital appreciation and dividend income greater than that of the S&P 500® Index over a full market cycle. For taxable accounts, the Strategy seeks to enhance after-tax returns of Program Accounts through methods including but not limited to proactive tax-loss harvesting and deferring the realization of capital gains. Strategic Advisers has retained FMRCo to provide a Model Portfolio that Strategic Advisers will use in managing accounts enrolled in the Strategy.

The *International Strategy* invests in securities and seeks capital appreciation and to outperform the MSCI EAFE Index (Net MA Tax) over a full market cycle. The Strategy invests primarily in ADRs and a proprietary mutual fund designed for use in Program Accounts that invests in foreign securities where ADRs are either unavailable or inappropriate. For taxable accounts, the Strategy seeks to enhance after-tax returns of Program Accounts through methods including but not limited to proactive tax-loss harvesting and deferring the realization of capital gains. Strategic Advisers has retained FMRCo to provide Model Portfolios that it will use in managing accounts enrolled in the Strategy. Strategic Advisers will blend Model Portfolios for multiple investment exposures (e.g., growth, value, and core equity) at its discretion based on market cycle implications and overall portfolio positioning.

The *U.S. Large Cap Index Strategy* invests in stocks and seeks to approximate the pretax risk and return characteristics of the Fidelity U.S. Large Cap IndexSM (the "Large Cap Index") while enhancing after-tax returns using tax-smart investing techniques. The Large Cap Index is designed to reflect the performance of the stocks of the largest 500 U.S. companies based on float-adjusted market capitalization. The Strategy seeks to enhance after-tax returns of taxable Program Accounts through methods including but not limited to proactive tax-loss harvesting and deferring the realization of capital gains. In addition, while this Strategy looks to approximate the pretax risk and return characteristics of the Large Cap Index, it will invest in only a subset of the stocks that make up the index.

The *International Index Strategy* invests in securities and seeks to approximate the pretax risk and return characteristics of the Fidelity Developed International ex North America Focus Index (Net) while enhancing after-tax returns through the use of tax-smart investing techniques. This Strategy invests primarily in ADRs. The Fidelity Developed International ex North America Focus Index (Net) is designed to reflect the performance of the developed international equity market, including large-cap stocks, based on float-adjusted market capitalization. This Strategy seeks to enhance after-tax returns of taxable Program Accounts through methods including but not limited to proactive tax-loss harvesting and

deferring the realization of capital gains. In addition, while this Strategy looks to approximate the pretax risk and return characteristics of the Fidelity Developed International ex North America Focus Index (Net), it will invest in only a subset of the stocks that make up the index.

The *U.S. Total Market Index Strategy* invests in stocks and seeks to approximate the pretax return and overall risk profile of the Fidelity U.S. Total Investable Market Index while actively trading holdings in an attempt to enhance after-tax returns through the use of tax-smart investing techniques. The Fidelity U.S. Total Investable Market Index is a float-adjusted market capitalization-weighted index designed to reflect the performance of the stocks of the largest 3,000 U.S. companies based on float-adjusted market capitalization. The Strategy seeks to enhance after-tax returns of Program Accounts through methods including but not limited to proactive tax-loss harvesting and deferring the realization of capital gains. While this Strategy looks to approximate the pretax risk and return characteristics of the Fidelity U.S. Total Investable Market Index, it will purchase only a subset of the stocks that make up the index.

The *U.S. Low Volatility Index Strategy* invests in stocks and seeks to approximate the pretax return and overall risk profile of the Fidelity U.S. Low Volatility Focus Index while actively trading holdings in an attempt to enhance after-tax returns through the use of tax-smart investing techniques. The Fidelity U.S. Low Volatility Focus Index is designed to reflect the performance of large- and mid-cap stocks with lower volatility than the broader market. The Strategy seeks to enhance after-tax returns of Program Accounts through methods including but not limited to proactive tax-loss harvesting and deferring the realization of capital gains. While this Strategy looks to approximate the pretax risk and return characteristics of the index, it will purchase a subset of the stocks that make up the index as well as a subset of stocks from the largest 1,000 U.S. companies based on float-adjusted market capitalization.

The *Environmental Focus Strategy* invests in stocks and seeks to reduce ownership of securities in companies that have lower systematic environmental scores ("environmental ratings") compared with the Large Cap Index while approximating the pretax risk and return characteristics of the Large Cap Index. This Strategy seeks to enhance after-tax returns of taxable Program Accounts through the application of tax-smart investing techniques that include but are not limited to proactive tax-loss harvesting and deferring the realization of capital gains. Please note that the Strategy's goal of delivering a portfolio with a better aggregate environmental rating compared with the index could constrain the degree to which tax-smart investing techniques can be implemented. In addition, while this Strategy seeks to approximate the pretax risk and return characteristics of the Large Cap Index, it will purchase only a subset of the stocks that make up the index. It is important to understand that the application of environmental sustainability data and filtering will cause an account invested according to the Environmental Focus Strategy to forgo certain investment opportunities, which will cause such an account to perform differently, perhaps significantly, compared with an account that does not exclude issuers based on such criteria.

To develop a portfolio that seeks to reduce the ownership of companies that have lower environmental ratings compared with the Large Cap Index, Strategic Advisers has retained the services of its affiliate FMRCo. FMRCo will use a screening process to filter the Large Cap Index. First, FMRCo will reduce the investment universe by applying six broad exclusionary criteria that seek to exclude issuers that are directly engaged in, and/or derive significant revenue from, certain industries or product lines. Such issuers may include but are not limited to:

- companies that are both in the top 30% of their sector and top 10% of the index with respect to carbon emissions;
- companies that are both in the top 30% of their sector and top 10% of the index with respect to water usage;

- companies subject to certain FMRCo sustainable portfolio exclusions (including civilian semiautomatic firearms manufacturers, tobacco producers, for-profit prison companies, cluster munitions and land mine manufacturers, and thermal coal production and/or mining companies);
- companies with coal reserves;
- companies with oil and gas reserves; and
- companies that generate electric power from thermal coal.

FMRCo relies on its proprietary research as well as data from third parties in applying these exclusionary criteria.

FMRCo will rank issuers based on environmental ratings and provide Strategic Advisers with an investment universe that seeks to include the highest-scoring stocks in each sector (generally, the top 50%) as measured across a variety of environmental factors (the “Environmental Factors”) as determined by FMRCo analysts in their discretion to be most relevant for each sub-industry. FMRCo analysts select these Environmental Factors and assign weights to them for each stock in the Large Cap Index. These Environmental Factors include but are not limited to carbon emissions, water stress, and toxic emissions and waste. FMRCo uses data from a number of third-party data vendors (e.g., CDP and MSCI) as well as proprietary data to analyze the Environmental Factors. FMRCo will generally review and update scores monthly. At any time, FMRCo can change Environmental Factors and stock-scoring processes as well as its process and data sources for evaluating issuers on any Environmental Factor.

After the application of these exclusionary criteria and the scoring of all stocks in the index, the investment universe will generally include the top-scoring 200–300 issuers in the Large Cap Index, which represents approximately 40%–60% of the Large Cap Index. Strategic Advisers will generally invest in only a subset of the securities of those issuers included in the environmentally screened investment universe, resulting in portfolios consisting of 100–200 stocks that, in the aggregate, have a better environmental rating compared with the Large Cap Index as a whole.

FMRCo’s exclusionary criteria do not capture all possible Environmental Factors, and there is no common industry standard relating to the development and application of environmental sustainability criteria. Certain exclusions are based in whole or in part on data provided by one or more third-party vendors and are, therefore, subject to each vendor’s industry and product line definitions (which may differ from those of FMRCo and Strategic Advisers) and data limitations. Data used in applying the exclusion criteria may include inputs self-disclosed by companies as well as estimates where public disclosures are unavailable. The subjective value that an investor assigns to certain types of environmental sustainability criteria can differ substantially from that of FMRCo and Strategic Advisers, and reasonable investors can differ in their views of what constitutes positive or negative environmental sustainability characteristics. As a result, clients should not assume that the Environmental Focus Strategy will necessarily invest in stocks of issuers that reflect their own environmental beliefs and values. The application of environmental sustainability data and filtering will cause an account invested according to the Fidelity Environmental Focus Strategy to forgo certain investment opportunities, which will cause such an account to perform differently, perhaps significantly, compared with an account that does not exclude issuers based on such criteria.

In addition, the Environmental Factors that FMRCo considers in evaluating an issuer’s environmental rating will change over time. Strategic Advisers reserves the right to use a different service provider to perform the environmental sustainability data assessment at any time. Any change in the service provider would likely result in the consideration of different factors in evaluating an issuer’s environmental rating, which could substantially change the portfolio for Environmental Focus Strategy accounts.

If Strategic Advisers has been directed by a client to act as agent to vote proxies with respect to the individual securities held in a Program Account, Strategic Advisers will vote proxies pursuant to the directions provided by Institutional Shareholder Services Inc. ("ISS"). Please note that the Environmental Focus Strategy does not evaluate or consider proxy voting in attempting to reach its objective. Accordingly, it is possible that ISS' proxy voting directions can be inconsistent with, or contrary to, the environmental goal of an Environmental Focus Strategy account.

Additional Information about Investment Techniques

Tax-Smart Investing Techniques

While each Strategy uses tax-smart investing techniques in taxable accounts, please note that the stated investment objective is of primary importance. Accordingly, the application of tax-smart investing techniques is a secondary consideration. Clients should understand that significant tax consequences can result from investing in a Strategy with a primary focus other than tax-smart investing techniques. For example, each Strategy has a corresponding investable universe of investments that has been constructed by Strategic Advisers. With respect to the Environmental Focus Strategy, stocks used to fund a Program Account that are not included in the environmentally screened investable universe for the Strategy will be sold without regard to potential tax consequences of such sales. Realizing gains could create a tax liability, particularly when offsetting losses are not available. For additional considerations related to tax-smart investing techniques, please see the disclosure below under "Opening and Funding a Program Account" and "Methods of Analysis, Investment Strategies, and Risk of Loss."

Fractional Share Investing

Each Strategy can invest in fractional shares of individual securities. Please see "Methods of Analysis, Investment Strategies and Risk of Loss" below for more information about fractional share investing in Client Accounts.

Investment Restrictions

A client can impose reasonable restrictions on the management of a Program Account. Any proposed restriction is subject to our, as well as the applicable sub-advisor's review and approval. Reasonable restrictions for Program Accounts typically are limited to the restriction of up to five individual securities or up to two industries. Reasonable restrictions will not apply to underlying securities or holdings that are held in a mutual fund, ETP, or any other types of pooled vehicles purchased in the Program Account. If a restriction is accepted, assets will be invested in a manner that is appropriate given the restriction, which can include investment in ETPs. It is important to understand that imposing an investment restriction can delay the start of discretionary management and can impact the performance of a Program Account, at times significantly, as compared with a Program Account managed without restrictions, possibly producing lower overall results. Program Account restrictions must be requested online.

Responsibility of Clients

We rely on client information to provide the Program Services. It is the client's responsibility to advise us of changes to their financial situation, risk tolerance, tax situation, and time horizon. Such changes can result in modification to the tax-smart investing techniques used for a Program Account. Clients with multiple relationships with Fidelity should understand that updating information about a Program Account does not update information about an account enrolled in another advisory service or one that is self-directed. Accordingly, clients should ensure that their personal, financial, and other important information is independently updated for each respective service or account.

FEES AND COMPENSATION

Advisory Fees—General Information. Clients will be charged an annual Gross Advisory Fee of 0.40% for the U.S. Large Cap Index Strategy, the International Index Strategy, the U.S. Total Market Index Strategy, the U.S. Low Volatility Index Strategy, and the Environmental Focus Strategy, and 0.70% for the U.S. Large Cap Strategy,

the Dividend Income Strategy, and the International Strategy, in each case, based on average daily assets held in a Program Account (average daily assets are determined on the last business day of the quarter). The Gross Advisory Fee includes the Program Services described herein and is payable after the end of each quarter. The Gross Advisory Fee includes the ongoing discretionary management of a Program Account as well as the brokerage, clearing, and custody services provided by Strategic Advisers' affiliates.

The following fees are in addition to the Gross Advisory Fee: (i) certain charges resulting from transactions executed with or through broker-dealers that are not affiliates of Strategic Advisers; and (ii) markups and markdowns, transfer taxes, exchange fees, regulatory fees, odd-lot differentials, handling charges, electronic fund and wire transfer fees, ADR custody fees, or any other charges imposed by law or otherwise agreed to with regard to a Program Account. Strategic Advisers or its affiliate can voluntarily assume the cost of certain commissions for equity transactions executed with or through broker-dealers that are not affiliates of Strategic Advisers; clients will not be charged commissions for such transactions. The Gross Advisory Fee also does not include underlying expenses charged by the core Fidelity money market fund, which is the cash sweep vehicle for a Program Account. These fund expenses, which vary by fund and class, are expenses that all mutual fund shareholders pay. Details of the core money market fund expenses can be found in the fund's prospectus, which is provided to clients with their enrollment materials and is available on Fidelity.com. These expenses are not separately itemized or billed; rather, the published returns of a mutual fund are shown net of its expenses.

Billing. The Net Advisory Fee will be deducted automatically from a client's Program Account after the end of each quarter and will not be billed separately. Certain assets in a Program Account could be liquidated to pay the fees; this liquidation could generate a taxable gain or loss in a taxable Program Account.

Additional Fee Information. A client's Gross Advisory Fee will be reduced by a credit amount (the "Credit Amount") with respect to the core Fidelity money market fund and any securities a client elects to transfer into a Program Account. The Credit Amount is intended to address the conflicts of interest that arise from Program Account investments that generate revenue for Fidelity by reducing the advisory fees paid to Strategic Advisers by the amount of compensation, if any, Strategic Advisers or its affiliates retain that is derived as a direct result of investments held in or transferred into a Program Account. The underlying mutual fund expenses that are paid to Strategic Advisers or its affiliates as a direct result of investments by a Program Account will be included in the Credit Amount that reduces the Gross Advisory Fee; the Credit Amount is applied after the end of each quarter. For Fidelity Funds, the Credit Amount will equal the underlying investment management and any other fees or compensation Strategic Advisers or its affiliates retain from such a fund as a direct result of investments by Program Accounts. For non-Fidelity mutual funds, the Credit Amount will equal the distribution fees, shareholder servicing fees, and any other fees or compensation Strategic Advisers or its affiliates retain from these funds (or their affiliates) as a direct result of investments by Program Accounts.

It is important to understand that Strategic Advisers' affiliates receive compensation for providing a variety of services to mutual funds, as described below in "Client Referrals and Other Compensation." Such compensation is included in the Credit Amount only to the extent that it is retained as a direct result of investment by Program Accounts. Compensation that is not directly derived from Program Account assets is not included in the Credit Amount. In addition, certain de minimis revenue received by Strategic Advisers' affiliates could be donated to charity (rather than included in the Credit Amount) or could be allocated, pro rata based on client assets, among open Program Accounts in the Program.

All fees are subject to change and Strategic Advisers has the ability to negotiate advisory fees for certain accounts. Strategic Advisers also could agree to waive fees, in whole or in part, in its sole discretion, including but not limited to (i) in connection with promotional efforts and other programs, including but not limited to situations designed to facilitate transitions between advisory programs; or (ii) for certain current and former employees of Fidelity. This will result in certain clients paying less than the standard fee. In addition, accounts with negotiated advisory fees do not receive the Credit Amount; instead, required Credit Amounts will be allocated, pro rata based on assets, among the other open Program Accounts in the Program at the time the

Credit Amount is applied. This operational process results in credits that would otherwise be attributable to one Program Account being received by another Program Account. In certain circumstances, Fidelity will manage certain other accounts in a manner substantially similar to a Program Account under arrangements that can include negotiated terms and conditions that depart from the standard service offering.

Generally, except as described above, clients will not pay any commissions, transaction fees, or sales loads on the securities purchased in a Program Account. Clients are responsible for any fees resulting from the sale of securities used to fund a client's investment in a Program Account (whether such sale is inside or outside a Program Account) and any subsequent withdrawals that the client initiates. The Program Fee includes fees paid to the sub-advisor for the discretionary portfolio management services provided to Program Accounts; Strategic Advisers pays the sub-advisor a portion of the Program Fee, which varies based on the amount of assets under management. The Program Fee does not include amounts charged with respect to a regulatory fee that applies to all sales of securities and which varies over time. This charge is estimated and assessed in advance; this process could lead to overestimating or underestimating the actual regulatory fee. To the extent that such estimated amount is greater than the actual regulatory fee, Fidelity will retain the excess. Account size is a factor affecting the impact of an overestimated regulatory fee. These charges will be reflected on statements and/or trade confirmations.

Strategic Advisers' affiliates sponsor promotional offers that provide clients with the ability to receive cash compensation or a reduced advisory fee for opening and funding certain accounts. Accounts opened through the Program are, from time to time, included in the list of account types and investment solutions eligible for such promotional offers. The Program's eligibility for such promotional offers creates a conflict of interest, as Strategic Advisers and its affiliates are incentivizing clients to use the Program rather than Strategic Advisers' other managed account programs or self-directed investment options available through Fidelity Brokerage Services LLC ("FBS"). Strategic Advisers can also, from time to time, provide cash compensation to Program clients for taking qualifying actions with respect to their Program Account, such as certain interactions with Program features. Any compensation will be deposited into the client's Program Account, will be subject to the advisory fee applicable to the Program, and may have tax consequences. A promotional offer is not a recommendation to implement any asset allocation strategy or select a particular account type or investment solution.

Also, during the time a client is enrolled in the Program, the client could be eligible to receive certain services offered by Strategic Advisers' affiliates based, in whole or in part, on the amount invested with the Program. It is important to understand that such services are not part of the Program Services for which the Program Fee is paid. In addition, while enrolled in the Program, a client could receive information about how to access financial wellness and/or professional support resources and services that are offered by entities unaffiliated with Fidelity, some of which pay compensation to Fidelity as a result of a client's use of such resources or services. Such resources and services are not included as part of Program Services and any applicable costs associated with enrolling in or subscribing to these resources or services would be separate from and in addition to the Program Fee.

Other Considerations. In evaluating the Program, please consider that Fidelity offers a variety of investment advisory services and brokerage offerings. These offerings are summarized below to assist clients in understanding and comparing the services and offerings. For more detailed information regarding each offering and investment advisory service, please review the respective Form ADV, Part 2A Brochure available at [Fidelity.com/information](https://www.fidelity.com/information) or through a Fidelity representative. Refer to the "Guide to Brokerage and Investment Advisory Services at Fidelity Investments" (available at [Fidelity.com/information](https://www.fidelity.com/information)) for more information regarding our roles and responsibilities when providing brokerage and advisory services.

Please note that, other than the self-directed brokerage account offered by FBS, the advisory programs included in the chart below are each offered by Strategic Advisers.

PRODUCT	DESCRIPTION	INVESTMENT	GENERAL ELIGIBILITY	FEE STRUCTURE
Fidelity Go®	Digitally provided discretionary investment management and planning; access to a team of phone-based representatives for one-on-one financial coaching for clients who maintain \$25,000 or more in a Fidelity Go account	Portfolio based on a client's investment profile and composed of a mix of zero expense ratio Fidelity mutual funds	No account minimum; \$10 to invest	Less than \$25,000 invested: no advisory fee Asset-based advisory fee: 0.35% annually for \$25,000 and above Invests in zero expense ratio Fidelity mutual funds that do not charge management fees (or with limited exceptions, fund expenses)

Fidelity® Strategic Disciplines	Discretionary investment management of a single asset class (including tax-smart investing techniques); planning and advice is provided through a dedicated representative	A mix of individual securities, including but not limited to stocks, bonds, American Depositary Receipts, and/or exchange-traded products and mutual funds, depending on the client's selected strategy	Depending on strategy selected, account investment minimums of \$100,000 (equity strategies) and \$350,000 (bond strategies), each subject to qualification for support from a dedicated Fidelity representative, which is based on a variety of factors (for example, a client with at least \$500,000 invested in an eligible Fidelity account would typically qualify)	Asset-based advisory fee: 0.20%–0.70% annually for equity strategies and 0.35%–0.40% annually for fixed income strategies, depending on the amount invested

PRODUCT	DESCRIPTION	INVESTMENT	GENERAL ELIGIBILITY	FEE STRUCTURE
Fidelity® Wealth Services	Advisory Services Team provides customized planning, advice, and discretionary investment management (including tax-smart investing techniques); planning and advice is provided by a centralized team of phone-based representatives	A mix of Fidelity and non-Fidelity mutual funds and exchange-traded products invested using a dynamic asset allocation that can respond to changes in the economic business cycle; offered with multiple investment approaches and universes	\$50,000 minimum investment	Asset-based advisory fee: 1.10% annually, less a fee credit that reflects compensation retained by Fidelity as a direct result of a client's investments
	Wealth Management and Private Wealth Management provide customized planning, advice, and discretionary investment management (including tax-smart investing techniques); planning and advice is provided through a dedicated representative supported by a service team	A mix of Fidelity and non-Fidelity mutual funds and exchange-traded products and, depending on a client's preferences and investment profile, individual securities, invested using a dynamic asset allocation that can respond to changes in the economic business cycle; offered with multiple investment approaches and universes	\$50,000 minimum account investment for Wealth Management and \$2 million minimum investment and \$10 million investable assets for Private Wealth Management, each subject to qualification for support from a dedicated Fidelity representative, which is based on a variety of factors (for example, a client with at least \$500,000 invested in an eligible Fidelity account would typically qualify)	Asset-based advisory fee: 0.50%–1.50% annually, depending on the amount invested, less a fee credit that reflects compensation retained by Fidelity as a direct result of a client's investments (additional fees of up to 0.40% for management of certain individual security strategies can also apply where advisory services are not provided solely by a Strategic Advisers affiliate)
Fidelity Wealth Advisor Solutions®	A referral network of unaffiliated investment advisors that provide customized wealth management and investment strategies	Investment vehicles will vary by unaffiliated investment advisor and strategy	Investment minimums will vary by unaffiliated investment advisor and services provided	Advisory fees will vary by unaffiliated investment advisor and services provided
Self-Directed Brokerage Account	Self-directed trading through FBS, with access to Fidelity's online tools, planning, and resources, and support provided by brokerage representatives. A dedicated representative is available based on relationship	Brokerage customers can choose from a wide variety of investments, including mutual funds, exchange-traded funds, stocks, bonds, and insurance and annuity products. Note that certain securities available through Strategic Advisers' advisory services are not available in self-directed brokerage accounts	No minimum to open a brokerage account. Qualification for support from a dedicated Fidelity representative is based on a variety of factors (for example, a client with at least \$500,000 invested in an eligible Fidelity account would typically qualify)	Transaction fees and investment expenses vary based on investment vehicle selected; no ongoing asset-based advisory fee charged by Strategic Advisers

A client could invest directly in the individual securities available through the Program through a Fidelity brokerage account or a brokerage account at another firm without an advisory fee. Also note that Fidelity Strategic Disciplines, described in the chart above, offers certain investment strategies that are substantially similar to those in the Program, with the added benefit of support from a dedicated Fidelity representative, at the same or a lower advisory fee rate, depending on account balance. Fidelity Strategic Disciplines has a per-account minimum investment of \$100,000, subject to qualification for support from a dedicated Fidelity advisor. Investments in the U.S. Large Cap Strategy, the Dividend Income Strategy, and the International Strategy would have the same advisory fee rate if a client invests in Fidelity Strategic

Disciplines for account balances up to \$300,000 and will have a lower advisory fee rate for balances above that amount. Investments in the U.S. Large Cap Index Strategy, the International Index Strategy, the U.S. Total Market Index Strategy, the U.S. Low Volatility Index Strategy, and the Environmental Focus Strategy would have the same advisory fee rate if a client invests in Fidelity Strategic Disciplines for account balances up to \$1 million and will have a lower advisory fee rate for balances above that amount. In addition, the Strategies available through the Program, while designed for the Program, could be similar to a mutual fund or other product available for direct investment by the client, and the operating expenses of such a mutual fund or other product could differ from the Program Fee.

However, while clients can obtain products and services from Fidelity or other firms that are similar to one or more of the Program's services, investments could be subject to sales loads or transaction and redemption charges that are generally waived as part of the Program; and the overall cost of purchasing the products and services separately will most likely differ from the Program Fee. Factors that bear upon the cost of the Program in relation to the cost of the same or similar products and services purchased separately include, among other things, the amount of brokerage trades executed through Fidelity-affiliated broker-dealers (the charges for which are included in the Gross Advisory Fee) as compared with the brokerage trades executed through other broker-dealers (the charges for which are not included in the Gross Advisory Fee).

Information about Fidelity and Fidelity Representative Compensation. Fidelity representatives who support the Program are associated with Strategic Advisers and FBS. Fidelity representatives act on behalf of FBS when recommending an advisory program offered by Strategic Advisers. Please note that Fidelity representatives are not able to provide investment advice or financial planning in connection with the Program. Once a client enrolls in the Program, the Fidelity representative will be providing Program Services. Separate and apart from the Program, Fidelity representatives, including those who support the Program, can provide clients with a variety of FBS services, including investment education and advice, financial analyses, and financial planning services. When providing services for FBS, these Fidelity representatives are acting solely as registered representatives of FBS, and Program Fees are not related to those FBS services. Fidelity representatives receive a percentage of their total annual compensation as base pay—a predetermined and fixed annual salary. Base pay varies between Fidelity representatives based on experience and position. In addition to base pay, Fidelity representatives are also eligible to receive either variable compensation or an annual bonus, and certain representatives are also eligible to receive longer-term compensation. Depending on the representative's role, variable compensation can be impacted by the amount of assets a client transfers into and invests with Fidelity, the products or services the client chooses both initially and on an ongoing basis, client satisfaction, or a manager's assessment of the representative's performance. Whether and how much each Fidelity representative receives in each component is generally determined by the representative's role, responsibilities, and performance measures.

Fidelity and the Fidelity representatives who support the Program and who are eligible to receive variable compensation receive different amounts of compensation depending on the type of product or service a client selects. Depending on the specific situation, the compensation received by Fidelity and those representatives in connection with a client enrolling in the Program could be greater than the compensation received by Fidelity and its representatives if a client participated in another Fidelity advisory program or maintained a brokerage account. Products and services that generally require more time to engage with a client and/or that are more complex provide greater compensation to a representative. This compensation structure creates a financial incentive for Fidelity and its representatives to recommend investments in more complex or time-consuming products and services over others, and to recommend that a client maintain an investment in such products and services over time. Fidelity addresses these conflicts of interest by having processes in place that require our representatives to make recommendations that are in the best interest of clients, training and supervising our representatives, and disclosing these conflicts of interest to clients so that they can consider the conflicts when making financial decisions.

To see specific compensation levels for the managed account programs mentioned above and other products, including an example of compensation that can be earned by Fidelity Consultants, please see the “Fidelity Investments Compensation Disclosure” document (available at [Fidelity.com/information](https://www.fidelity.com/information)), or contact a Fidelity representative. Clients should read the information contained in the “Fidelity Investments Compensation Disclosure” document carefully, and can ask a representative at any time whether and how they are compensated with respect to a particular product or service and about the financial incentives and conflicts of interest that Fidelity has when making recommendations of products or services.

ACCOUNT REQUIREMENTS AND TYPES OF CLIENTS

The Program is generally available to individual investors who are U.S. persons (including a U.S. resident alien), typically reside in the United States, and have a valid U.S. taxpayer identification number. The Program is not available to foreign investors. Strategic Advisers can, in its sole discretion, decline to permit participation in the Program for any reason. Program Accounts can be either tax-advantaged accounts (e.g., traditional, Roth, and rollover individual retirement accounts, collectively “retirement accounts”) or taxable accounts. The U.S. Large Cap Index Strategy, the U.S. Total Market Index Strategy, the U.S. Low Volatility Index Strategy, and the International Index Strategy are each available only for taxable accounts, while the U.S. Large Cap Strategy, the International Strategy, the Dividend Income Strategy, and the Environmental Focus Strategy are each available to both taxable and retirement accounts.

Clients must also have regular Internet access and be comfortable with a digital investment experience and online services. All Program-related communications, materials, and Program documents will be delivered electronically. Clients will be sent an electronic notification regarding the availability of Program documents, and a link or website address where the Program documents can be accessed. It is important to note that if a client wants to revoke their consent to electronic delivery of Program-related communications and/or Program documents, we will terminate their participation in the Program.

Each Strategy has a per-account investment minimum (“Strategy Minimum”) of \$5,000. Please note that clients can open a Program Account without reaching the Strategy Minimum; however, assets used to fund the account will not be invested according to the selected Strategy until the Strategy Minimum has been reached. Until the Strategy Minimum is reached, assets will be invested in the core Fidelity money market fund. Strategic Advisers can, in its sole discretion, elect to change or waive a Strategy Minimum at any time. Please note that if a Program Account balance falls below the Strategy Minimum stated above, it can affect the sub-advisor’s ability to manage the Program Account according to the selected Strategy. Program Accounts that fall below the Strategy Minimum can be removed from the Program.

To enroll in the Program, a client must agree to the Program Client Agreement, which details the terms and conditions under which the client appoints Strategic Advisers to provide the Program Services. Our advisory relationship with a client begins when we accept the Program Client Agreement. Preliminary discussions or recommendations made before we accept a Program Client Agreement are not intended as investment advice provided by Strategic Advisers. The Program Client Agreement requires that clients delegate discretionary authority to Strategic Advisers and authorize Strategic Advisers to hire a sub-advisor to implement the selected Strategy for the client’s Program Account. The Program Client Agreement will also permit sub-advisors to provide day-to-day investment management for the clients’ Program Account, which includes the authority to determine which securities to purchase or sell, the total amount of such purchases and sales, and the brokers or dealers through which transactions are executed in Program Accounts, subject to certain Program and regulatory limitations and a sub-advisor’s internal policies and procedures. The Program Client Agreement also establishes a brokerage account with FBS, a registered broker-dealer, affiliate of Strategic Advisers and member of NYSE and SIPC. During a

client's participation in the Program, the client's Program Account will not be available for the client's self-directed brokerage activities.

Another affiliate of Strategic Advisers, National Financial Services LLC ("NFS"), a registered broker-dealer and a member of NYSE and SIPC, has custody of client assets and will perform certain account services, including the implementation of discretionary management instructions, as well as custodial and related services. Certain personnel of Strategic Advisers, FBS, and NFS share premises and have common supervision.

Strategic Advisers does not acquire authority for, or exercise proxy voting on behalf of, a client in connection with offering Program Accounts. However, clients can direct Strategic Advisers to act as agent to vote proxies with respect to the investments held in a Program Account whereby clients must instruct Strategic Advisers to vote proxies for individual securities pursuant to the directions provided by ISS (a summary of which is available at [Fidelity.com/information](https://www.fidelity.com/information)). The environmental goal of the Environmental Focus Strategy is applied to the selection of securities in Program Accounts only, and is not incorporated into proxy voting decisions for Program Accounts. Accordingly, ISS' proxy voting directions will not necessarily take sustainability characteristics into consideration and it is possible that ISS' proxy voting directions will be inconsistent with, or contrary to, the environmental goal of the Environmental Focus Strategy.

Opening and Funding a Program Account

Clients can fund a Program Account by depositing cash and/or eligible securities, which will generally include the following:

- Cash;
- Core Fidelity money market funds;
- Common stocks and REITs listed in the S&P 500, Russell 3000®, and Dow Jones U.S. Total Stock Market indexes;
- ADRs that meet certain liquidity requirements; and
- Certain ETPs.

Once we receive all the required information, and the funding processes and settlement of funds used to fund the Program Account have been completed, a Program Account will be reviewed for investment and will typically begin trading within five business days. The Program's general policy is for cash deposits to be invested in the core Fidelity money market fund identified as the cash sweep vehicle for Program Accounts as soon as reasonably practicable, then further invest portions of these assets in accordance with the selected Strategy. Fidelity will determine, in its sole discretion, which securities will be eligible to fund a Program Account. Transferred securities imported into Program Accounts must be held free and clear of any liens, pledges, or other legal or contractual restrictions. At times, Fidelity will not accept individual securities due to internal guidelines or state or federal regulations. Alternatively, Fidelity reserves the right to transfer an ineligible security back to the account from which the client transferred the asset or to another like-registered account held at Fidelity.

Each Strategy has a corresponding investable universe of investments that has been constructed by the sub-advisor. For Program Accounts managed with tax-smart investing techniques, funding with securities that are included in the investable universe can result in the sub-advisor continuing to hold and manage such securities, depending on the concentration and tax impact of selling.

Securities used to fund the account that are not included in the applicable investable universe will be sold without regard to the potential tax consequences of such sales. Sales of eligible and ineligible transferred securities will be subject to redemption and other applicable fees, including commissions on sales of

securities; however, under certain circumstances, the Program can voluntarily assume the costs of certain commissions. A client could realize a taxable gain or loss when these shares are sold. In addition, when securities are purchased in Program Accounts, the client could receive taxable distributions out of the earnings that have accrued before such purchases (a situation referred to as “buying a dividend”).

For initial funding or subsequent deposits to a Program Account managed with tax-smart investing techniques, Fidelity must be provided with tax basis information for all securities that will be managed. Discretionary portfolio management will not occur for such a Program Account until the completed tax basis information has been received. Although Fidelity is required to report certain tax basis information to the Internal Revenue Service, Fidelity will not otherwise verify (and is not otherwise responsible for) the accuracy of the tax basis information provided.

Additional deposits of cash or securities can be made to a Program Account at any time. Discretionary management of additional deposits will generally occur as soon as reasonably practicable but can be delayed for certain reasons, including time needed to liquidate securities, special handling instructions, or because the additional deposit may not necessitate trading at that time. In general, we will begin charging advisory fees on additional deposits once assets have been received into the Program Accounts and have been deemed in good order for management purposes.

Withdrawals, Account Closure, and Program Termination

A client can request a withdrawal from a Program Account, elect to close one or more Program Accounts, or elect to close all Program Accounts and terminate Program enrollment. If a client instructs us to terminate their participation in the Program, we will cease managing the Program Account, additional deposits will no longer be accepted into the Program Account, and any Program Account features will be terminated. In addition, Strategic Advisers reserves the right to terminate a client's Program Services (or limit the client's rights to access any or all account features, products, or services) for any reason, including (i) if a client fails to maintain a valid email address, (ii) if a client revokes their consent to electronic delivery of Program-related communications and/or Program documents, (iii) if any authorized person on a Program Account resides outside the U.S., (iv) if the balance of a Program Account falls below the Strategy Minimum, or (v) if the Program is deemed no longer appropriate for a client.

Should either party terminate the investment advisory relationship, the Program Fee will be prorated from the beginning of any unbilled quarter to the termination date, which is defined as the date when we no longer manage the Program Account on a discretionary basis.

Clients will be required to provide instructions to be used in the event of withdrawals or Program Account closure. Clients have the option of electing that assets either be liquidated and the proceeds sent to the client by check or transferred to a bank account (or other account) or be transferred in-kind to another account.

While the timing of trading and settlement can vary, liquidating trades for partial and full withdrawal requests will typically be placed within the next five business days of the request. In-kind asset transfer instructions will typically be placed within five business days of such a request. For partial withdrawal requests, if transfer instructions are not provided, Fidelity will generally reinvest the cash proceeds of any sales into the client's discretionarily managed Program Account after 30 days. Note that liquidation of assets in taxable accounts could have adverse tax consequences.

It is important to understand that Program Accounts in certain strategies can hold a mutual fund that clients would not be able to buy or sell directly in a retail brokerage account and are able to hold only as part of the Program and that specific Strategy. In general, if an investor ceases to be a Program client or requests a transfer of such fund, shares of such fund will be redeemed, subject to the terms and conditions specified in the fund's prospectus.

There can be instances where we need to place a do-not-trade restriction on a Program Account, including when a client requests a security be transferred from a Program Account, when processing a trade correction, when we need to comply with a court order, when a client asks us to process a withdrawal and keep the proceeds from the sale of securities used to fund the withdrawal in the account until the client provides further instructions for the transfer of the proceeds, or when we need additional information from a client. For the period when a do-not-trade restriction is in effect, we generally will not trade or otherwise manage the Program Account until the do-not-trade restriction has been removed.

Please note that in certain situations, withdrawal or account closure requests by way of liquidation can take longer to fully process, as the sub-advisor could take additional time to sell securities at a desirable price. Please note that certain types of securities, such as certain foreign securities, can have extended or less frequent settlement periods, and their trading markets can be fragmented or thinly traded, which could affect the amount of time it takes to process withdrawal or closure requests. There can be no assurance as to how long it might take to obtain a desirable price for such securities or whether a desirable price can be obtained.

PORTFOLIO MANAGER SELECTION AND EVALUATION

Strategic Advisers offers the Program and provides discretionary investment management services to Program Accounts directly and, therefore, does not evaluate or select other portfolio managers to provide services directly to Program Accounts. Strategic Advisers does, however, evaluate and select Model Providers to provide investment models for certain strategies, as described further below.

While performance information is reviewed for accuracy and compliance with applicable standards, performance information is not reviewed by a third party to determine or verify its accuracy or compliance with presentation standards.

Performance-Based Fees and Side-By-Side Management

Strategic Advisers does not currently charge performance-based management fees for any of its advisory services and, therefore, does not engage in side-by-side management.

Methods of Analysis, Investment Strategies and Risk of Loss

About the Use of Model Portfolios. Strategic Advisers has retained its affiliate FMRCo to provide investment models to be used by Strategic Advisers in rendering discretionary investment advisory services to the Dividend Income Strategy, International Strategy, and U.S. Large Cap Strategy Program Accounts. FMRCo provides Strategic Advisers with Model Portfolios and provides periodic updates to each Model Portfolio. FMRCo is not acting as investment adviser or portfolio manager with respect to Program Accounts. Rather, Strategic Advisers is the portfolio manager and has the discretion to implement the models as provided by FMRCo or to make modifications as it deems appropriate. FMRCo could provide a similar Model Portfolio or manage accounts using a similar investment strategy for its other clients and could provide the model to such accounts or clients prior to providing it to Strategic Advisers. At any time, Strategic Advisers can determine to no longer receive a Model Portfolio from FMRCo, in which case Strategic Advisers can engage another investment firm to provide a Model Portfolio or manage Program Accounts without recommendations from a Model Portfolio provider.

For the International Strategy and the U.S. Large Cap Strategy, Strategic Advisers will blend the Model Portfolios it receives from FMRCo in its discretion, based on market cycle implications and overall portfolio positioning. FMRCo will generally use fundamental and quantitative analysis to select stocks for the Model Portfolio. Strategic Advisers has designed investment guidelines for the Model Portfolios delivered by FMRCo. These guidelines can change from time to time.

About Strategic Advisers' Model Provider Selection Process. Prior to selecting FMRCo to provide Model Portfolios, Strategic Advisers performed a comprehensive review of FMRCo and its investment style and approach. Strategic Advisers' review included, among other things, assessing information about FMRCo and its investment strategy. In selecting FMRCo, Strategic Advisers considered a variety of factors, including but not limited to investment approach, portfolio characteristics, and FMRCo's experience with similar investment strategies. Strategic Advisers evaluated information from both quantitative and qualitative analyses, including but not limited to FMRCo's investment strategy, security coverage, experience, growth of assets under management, stability of management, governance program, and trading and operational capabilities.

Strategic Advisers will evaluate FMRCo's adherence to the investment guidelines not less than semiannually based on the factors described above. Strategic Advisers, in its sole discretion, can replace FMRCo without prior notice to clients if, for example, Strategic Advisers determines that FMRCo is not adhering to the investment guidelines for the Dividend Income Strategy.

Additionally, a Model Portfolio provided by FMRCo could reflect trading decisions previously made by FMRCo for its discretionary client accounts and funds. As a result, Dividend Income Strategy, International Strategy, and U.S. Large Cap Strategy Program Accounts could receive prices that are more favorable or less favorable than the prices obtained by FMRCo's discretionary client accounts and funds, particularly with respect to thinly traded securities. Aggregate holding limits and other investment limits applicable to such prior trading decisions, and collectively to the discretionary accounts of FMRCo, Strategic Advisers, and their affiliates generally, could result in investment opportunities not being included in a Model Portfolio.

Strategic Advisers does not have a predetermined allocation with respect to the use of Fidelity or non-Fidelity model providers. To the extent that Strategic Advisers retains a Fidelity model provider, Fidelity will retain more compensation than if a non-Fidelity model provider were retained, and Fidelity will achieve greater efficiencies and economies of scale with respect to the research and management services that it provides to clients. Therefore, the use of a Fidelity model provider presents a conflict of interest. Strategic Advisers' investment professionals are not compensated based on the use of Fidelity or non-Fidelity model providers.

About Tax-Smart Investing Techniques. While each Strategy uses tax-smart investing techniques in taxable accounts, please note that the stated investment objective is of primary importance. Accordingly, the application of tax-smart investing techniques is a secondary consideration. Clients in these Strategies should understand that significant tax consequences can result from investing in a Strategy with a primary focus other than tax-smart investing techniques. For example, each Strategy has a corresponding investable universe of investments that has been constructed by Strategic Advisers. With respect to the Environmental Focus Strategy, stocks used to fund a Program Account that are not included in the environmentally screened investable universe for the Strategy will be sold without regard to potential tax consequences of such sales. Realizing gains could create a tax liability, particularly when offsetting losses are not available. Strategic Advisers cannot guarantee the effectiveness of its tax-smart investing techniques in serving to reduce or minimize a client's overall tax liability or the tax results of a given transaction, and Strategic Advisers does not take direction from a client on when to take gains or losses from the client's taxable Program Account.

Over the long run, tax-smart investing techniques are intended to contribute to helping clients reach their investment goals. However, Strategic Advisers can implement trades in accounts that trigger significant tax consequences in seeking to manage the Program Accounts consistently with long-term strategy investment objectives. The potential federal income tax consequences of holding, buying, and selling securities are considered as part of the investment services, but we do not consider state or local taxes; foreign taxes, including those applied to dividends and any potential reclaim; federal tax rules applicable to entities; or estate, gift, or generation-skipping taxes. The tax-smart investing techniques Strategic Advisers uses when it makes trading decisions to buy, hold, or sell securities for a client's taxable Program Account, will vary depending on the size of the Program Account and the investment strategy selected. The tax-smart investing techniques referenced throughout this brochure refer to one or more of the following:

Ability to harvest tax losses. Individual stock positions can experience price declines, possibly below a client's adjusted tax basis in the security (as determined by the tax basis information on record for the client's Program Account). In such instances, losses could be realized in the client's Program Account for tax purposes. In cases where a position is sold to realize a capital loss for tax purposes, the position usually will be replaced with one or a combination of investments we believe will maintain comparable market exposure. In harvesting tax losses, Strategic Advisers does not attempt to harvest every potential tax loss that occurs in the client's taxable Program Account and will consider factors such as investment risk, available comparable investment alternatives, and potential wash sales when deciding whether to harvest tax losses.

Strategic Advisers considers the potential application of the wash-sale rules when evaluating transactions in taxable Program Accounts. However, clients should understand that Strategic Advisers does not prevent or avoid wash sales in all cases. The wash-sale rule requires taxpayers to defer losses that would otherwise be realized if the taxpayer acquires a substantially identical investment 30 days before or after the sale. While Strategic Advisers considers whether its trading in taxable Program Accounts may trigger the wash-sale rules, we will nevertheless engage in transactions that are potentially subject to the wash-sale rules if we determine that such transactions are consistent with the investment objective of the Strategy. Strategic Advisers will monitor for wash sales within taxable Program Accounts. However, the wash-sale rule not only applies to investment transactions occurring in a taxable Program Account, but also to transactions occurring in other investment accounts, whether maintained at Fidelity or at another financial institution, which are held by the client, the client's spouse, and certain entities controlled by the client and/or a spouse. As a result, clients can have wash sales arising from transactions within taxable Program Accounts as well as other accounts (whether maintained at Fidelity or another institution). The wash-sale rule is complex, and while Strategic Advisers seeks to monitor wash sales in taxable Program Accounts, clients are ultimately responsible for determining whether the wash-sale rules apply to any particular transaction in their Program Accounts or in their other investment accounts. Clients should consult their tax advisors with respect to the application of the wash-sale rules based on their individual circumstances.

Opportunities to avoid and/or postpone capital gain realizations. If there are specific lots of securities in a client's Program Account—a block of shares bought at a particular time at a particular price—lots are reviewed and the potential federal income tax burden associated with selling that lot is weighed against the potential investment merits of the sale, such as performance potential, added diversification, and support of risk-management strategies. Once Strategic Advisers decides to sell an eligible security, it will attempt to sell the lot(s) that will generate the lowest overall federal income tax burden (or generate a loss for tax purposes) using the tax basis and holding period information on record, with a preference for long-term capital gains over short-term capital gains.

For additional considerations related to tax-smart investing techniques, please see the disclosure below under "Opening and Funding a Program Account."

Fractional Share Investing

Each Strategy can invest in fractional shares of individual securities. Clients should be aware that the use of fractional shares can result in the receipt of fewer dividends. Please note that any dividends received that are valued at less than \$0.01 but that round up to \$0.01 will be credited to a Program Account, but amounts that do not round up to \$0.01 will not be distributed to the Program Account that held the fractional share. If any amount is not distributed and the aggregate value is less than or equal to \$1.00 per security, it will be retained by NFS, and when it exceeds \$1.00, it will be escheated to the state of Delaware. Also, with respect to proxy voting, clients are not able to vote a fractional share of an individual security; however, if clients elect to appoint Strategic Advisers as proxy voting agent on their behalf, such fractional shares can generally be voted because such fractional shares will be aggregated for purposes of proxy voting. Fractional shares cannot be transferred to an account outside of Fidelity; in such situations, the fractional share would need to be sold and a taxable gain or loss incurred.

Additional Information about Strategic Advisers' Investment Practices

Clients can generally fund their Program Accounts with Fidelity money market funds, certain stocks, and ADRs. Should a client elect to transfer eligible securities into a Program Account, those securities will be reviewed and evaluated by Strategic Advisers for possible incorporation into the client's Program Account, but there can be no guarantee that any or all eligible securities transferred into a Program Account will be incorporated into the client's Program Account. Strategic Advisers retains discretion to sell such eligible securities at any time and without prior notice to the client, and, by enrolling in the Program, the client acknowledges that Strategic Advisers can sell any such eligible securities at any time if they determine it is appropriate to do so, without prior notice to the client. For taxable Program Accounts, clients could realize a taxable gain or loss when those securities are sold, which could affect the after-tax performance/return of the Program Account as well as the clients' tax liability. While Strategic Advisers does consider the potential tax consequences of the sale of eligible securities, the stated investment objective is of primary importance, and the application of tax-smart investing techniques is a secondary consideration. Accordingly, clients who fund a taxable Program Account with appreciated securities should understand that Strategic Advisers can sell such securities, notwithstanding that the sale could trigger significant tax consequences. Please contact a Fidelity representative for more information about opening and funding a Program Account. With respect to retirement Program Accounts enrolled in the Environmental Focus Strategy, the Dividend Income Strategy, the U.S. Large Cap Strategy and the International Strategy, Strategic Advisers generally does not consider the potential tax consequences of these sales. In addition, should a client transfer into a Program Account eligible securities that are not included in a Strategy's investable universe, or that are part of the investable universe but do not align with Strategic Advisers' investment allocation of such securities, Strategic Advisers will generally liquidate those securities in whole or in part as soon as reasonably practicable.

From time to time, Strategic Advisers and/or its affiliates can determine that, as a result of regulatory requirements that apply to Strategic Advisers and/or its affiliates due to investments in a particular country or in an issuer operating in a particular regulated industry, investments in the securities of issuers domiciled or listed on trading markets in that country or operating in that regulated industry above certain thresholds are impractical or undesirable. The foregoing limits and thresholds can apply at the Program Account level or in the aggregate across all accounts (or certain subsets of accounts) managed, sponsored, or owned by, or otherwise attributable to, Strategic Advisers and its affiliates. For investment risk management and other purposes, Strategic Advisers and its affiliates also generally apply internal aggregate limits on the amount of a particular issuer's securities that can be owned by all such accounts. In such instances, investment flexibility can be restricted, and Strategic Advisers can limit or exclude a client's investment in a particular issuer, which can include investment in related derivative instruments and investment flexibility will be restricted. To the extent that a Program Account already owns securities that directly or indirectly contribute to an ownership threshold being exceeded, Strategic Advisers could sell securities held in such Program Account in order to bring account-level and/or aggregate ownership below the relevant threshold. In the event that any such sales result in realized losses for a Program Account, that Program Account will bear such losses depending on the particular circumstances.

MATERIAL RISKS

Risks Associated with Investment Strategies. The discretionary investment management strategies implemented for Program clients involve risk of loss. Investments in a Program Account are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A client could lose money by investing in individual securities and mutual funds. A client could lose money by investing in a Program Account. Many factors affect each investment's or Program Account's performance and potential for loss. Strategies that pursue investments in equities will be subject to stock market volatility and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Strategies that pursue fixed income investments (such as bond or money market funds) will see values fluctuate in response to changes in interest rates, inflation and prepayment risks, as

well as default risks for both issuers and counterparties; changing interest rates, including rates that fall below zero, can have unpredictable effects on markets and can result in heightened market volatility. Developments that disrupt global economies and financial markets, such as wars, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events, can magnify factors that affect performance. These strategies are also affected by impacts to the individual issuers, such as changes in an issuer's credit quality, or changes in tax, regulatory, market, or economic developments. In addition, investments in certain bond structures are less liquid than other investments and therefore are more difficult to trade effectively. Municipal bond funds carry additional risks, which are discussed below. Nearly all investments or accounts are subject to volatility in non-U.S. markets, through either direct exposure or indirect effects in U.S. markets from events abroad. Those investments and accounts that are exposed to emerging markets are potentially subject to heightened volatility from greater social, economic, regulatory, and political uncertainties, as the extent of economic development, political stability, market depth, infrastructure, capitalization, and regulatory oversight can be less than in more developed markets.

In addition to the risks identified above, a summary of additional risks follows:

Risks of Equity Investments. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Different parts of the market can react differently to these developments. Value and growth stocks can perform differently from other types of stocks. For example, certain growth stocks can be more volatile than the market, and certain value stocks can continue to be undervalued by the market for long periods of time. In addition, stock investments could be subject to risk related to market capitalization as well as company-specific risk. Foreign securities are subject to interest rate, currency exchange rate, economic, regulatory, and political risks, all of which could be greater in emerging markets.

Foreign Exposure. Investing in foreign securities and securities of U.S. entities with substantial foreign operations are subject to interest rate, currency exchange rate, economic, tax, operational, regulatory, and political risks, all of which are likely to be greater in emerging markets. These risks are particularly significant for investment strategies that focus on a single country or region or emerging markets. Foreign markets can be more volatile than U.S. markets and can perform differently from the U.S. market. Emerging markets can be subject to greater social, economic, regulatory, and political uncertainties and can be extremely volatile. Foreign exchange rates can also be extremely volatile. Foreign markets can also offer less protection to investors than U.S. markets. For example, foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to U.S. issuers. Adequate public information on foreign issuers might be unavailable, and it could be difficult to secure dividends and information regarding corporate actions on a timely basis. Regulatory enforcement can be influenced by economic or political concerns, and investors could have difficulty enforcing their legal rights in foreign countries. Foreign governments may decide to seize or confiscate securities held by foreign investors or assets held by foreign issuers, restrict an investor's ability to sell or redeem securities, suspend or limit an issuer's ability to make dividend or interest payments, and/or limit or entirely restrict repatriation of invested capital, profits, and dividends. Furthermore, investments in securities of foreign entities can result in clients owning an interest in a passive foreign investment company ("PFIC"). Clients holding an interest in a PFIC could be subject to additional tax liabilities and filing requirements as a result of such investments. The rules regarding investments in PFICs are complex, and clients are urged to consult their tax advisors.

Risks of Investing in ADRs. ADRs are alternatives to directly purchasing foreign securities, but they are subject to many of the risks associated with investing directly in foreign securities. The depositary bank could charge fees for various services, including forwarding dividends and interest, and for corporate actions. Investing in ADRs could make it more difficult for U.S. persons to benefit from applicable tax treaty rates that could otherwise reduce withholding on any distributions from the underlying foreign issuer. Recovery of any extra foreign tax withheld can be costly and complex, and recovery could be unavailable for certain registration types, such as individual retirement accounts.

Environmental Focus Investing Risk. Because of the subjective nature of environmentally sustainable investing, there can be no guarantee that environmental sustainability criteria used by Fidelity will reflect the beliefs or values of any particular client. Clients should understand that the application of environmental sustainability criteria does not mean that an Environmental Focus Strategy account will exclude any and all security issuers that are deemed to have negative environmental sustainability characteristics; rather, the application of environmental sustainability criteria is intended to create an investment universe that has a higher aggregate environmental rating, as measured by FMRCo, than the Large Cap Index. Investing based on environmental sustainability factors could cause an Environmental Focus Strategy Program Account to forgo certain investment opportunities available to Strategies that do not use such criteria. An account can underperform other investments that do not assess environmental sustainability factors or that use a different methodology to identify and/or incorporate environmental sustainability factors. Information regarding environmental practices is obtained through voluntary or third-party reporting, which could be inaccurate or incomplete. Information used to evaluate environmental sustainability factors may not be readily available, complete, or accurate, and can vary across providers and issuers, as environmental sustainability is not uniformly defined. As a result, there is a risk that FMRCo could incorrectly assess a security or issuer. There is also a risk that Strategic Advisers or FMRCo does not apply the relevant environmental sustainability criteria correctly or that an account could have indirect exposure to issuers that do not meet the relevant environmental sustainability criteria used by such account. There could be limitations with respect to the readiness of environmental sustainability data in certain sectors as well as limited availability of investments with relevant environmental sustainability characteristics in certain sectors. FMRCo can change its environmental sustainability assessment of an issuer over time. Socially responsible norms differ by region. There is no assurance that the environmental sustainability investing strategy and techniques employed will be successful. Past performance is not a guarantee or reliable indicator of future results.

Quantitative Investing. Securities selected using quantitative analysis can perform differently from the market as a whole as a result of the factors used in the analysis, the weight placed on each factor, changes to the factors' behavior over time, market volatility, or the quantitative model's assumption about market behavior. In addition, Strategic Advisers' quantitative investment strategies rely on algorithmic processes and, therefore, are subject to the risks described below under the heading "Operational Risks." To the extent that the quantitative models fail to adequately match the risk and return profile of a referenced index used in managing a particular Strategy, a Program Account could perform differently; it could underperform, or it could outperform the corresponding reference index on a pretax basis. In addition, to the extent that the components of the corresponding reference index perform in a highly correlated fashion, the Strategy could be less effective at harvesting the tax losses on which the after-tax portion of the Strategy relies.

Money Market Fund Risk. A client could lose money by investing in a money market fund. Although a money market fund seeks to preserve the value of a client's investment at \$1.00 per share, it cannot guarantee it will do so. An investment in a money market fund is not a bank account and is not insured or guaranteed by the FDIC or any other government agency. Fidelity, the sponsor of Fidelity's money market funds, is not required to reimburse money market funds for losses, and a client should not expect that Fidelity will provide financial support to a Fidelity money market fund at any time, including during periods of market stress. Fidelity's government and U.S. Treasury money market funds will not impose a fee upon the sale of a client's shares.

ETPs. An ETP is a security that trades on an exchange and can seek to track an index, a commodity, or a basket of assets. ETPs can be actively or passively managed. The performance of a passively managed ETP might not correlate with the performance of the asset it seeks to track. ETPs trade on secondary markets or exchanges and are exposed to market volatility and the risks of the ETP's underlying securities. ETPs that use derivatives, leverage, or complex investment strategies are subject to additional risks.

Investment Research Risks and Limitations. The investment research process employed by Strategic Advisers includes gathering, cleaning, culling, and analyzing large amounts of data from external public sources and/or third-party data providers, including, in some instances, through the use of generative artificial intelligence ("AI") and large language models ("LLM"). It is not possible or practicable, however, to factor all relevant,

available data into economic forecasts or trading decisions. In addition, due to the automated nature of this data gathering and the fact that much of this data comes from third-party sources, it is inevitable that not all desired or relevant data will be available to, or processed by, Strategic Advisers at all times. Clients should be aware that there is no guarantee that the data utilized in generating forecasts or making trading decisions will be the most accurate data available or even free of errors. Furthermore, the use of AI and LLMs may require training of the models to be used in the research process and proper engagement by analysts in order to yield the desired outcome. There can be no guarantee that LLMs can be trained to address all scenarios or that they will provide complete and accurate responses in all situations. AI and LLMs are subject to various risks, including (i) the data used to train LLMs suffers inaccuracies, biases, or flaws that may cause the AI model to respond other than as intended; (ii) weak controls in the development and use of AI allow it to be deployed for use cases for which it was not intended; and (iii) the AI may provide inaccurate or fabricated responses to queries it is unable to process. Fidelity has adopted a Generative AI policy and governance framework so that the use of AI and LLMs is targeted and limited, and that AI and LLMs are trained using known and appropriate data sources and are subject to controls and oversight, which helps ensure that the use of AI and LLMs is but one input into the research process. Clients should assume that the foregoing limitation and risks associated with gathering, cleaning, culling, and analysis of large amounts of data from third-party, other external sources, and the use of AI and LLMs, are an inherent part of investing. There may also be incidents where data fails to load or internal systems fail to retrieve or capture the data, for example, because of changes in the vendor's or our system configurations due to upgrades, enhancements, maintenance or errors, or that LLMs provide incorrect information in response to certain prompts. Clients should assume that these data errors, like other system implementation errors, and their ensuing risks and impact are an inherent part of investing. Accordingly, unless otherwise required to do so, Strategic Advisers does not expect to disclose discovered data errors to clients.

Cybersecurity Risk. With the increased use of technologies to conduct business, Strategic Advisers and its affiliates are susceptible to operational, information security, and related risks. These risks could include events that are wholly or partially beyond our control and may have a negative effect on our ability to conduct business activities. We believe that we have taken reasonable steps to mitigate these risks, but do not believe that we can eliminate them altogether. In general, cyber incidents can result from deliberate attacks or unintentional events that can arise from external or internal sources. Cyberattacks include but are not limited to gaining unauthorized access to digital systems (e.g., through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information; corrupting data, equipment, or systems; and causing operational disruption. Cyberattacks can also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber incidents affecting Strategic Advisers, its affiliates, or any other service providers (including but not limited to accountants, custodians, transfer agents, and financial intermediaries used by Fidelity or by an issuer of securities) have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the ability to calculate the net asset value ("NAV"), impediments to trading, the inability to transact business, destruction to equipment and systems, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. Similar adverse consequences could result from cyber incidents affecting issuers of securities in which an account invests, counterparties with which an account engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions (including financial intermediaries and service providers), and other parties.

Legislative and Regulatory Risk. Investments in a Program Account could be adversely affected by new (or revised) laws or regulations. Changes to laws or regulations could impact the securities markets as a whole, specific industries, individual issuers of securities, and a sub-advisor's determinations with respect to the expected rate of return, value, or creditworthiness of a particular security. Generally, the impact of these changes will not be fully known for some time.

Operational Risks. Operational risks can include risk of loss arising from failures in internal processes, people, or systems, such as routine processing incidents or major systems failures, or from external events, such as exchange outages. Strategic Advisers uses algorithms in support of its discretionary portfolio management processes, which can contribute to operational risks. For example, algorithms are used as part of the process whereby Strategic Advisers recommends an appropriate asset allocation that corresponds to a level of risk consistent with a client's Profile Information. In providing financial planning services, algorithms are used in analyzing the potential for success of a client's financial plan. A sub-advisor can use algorithms in support of its discretionary portfolio management process. There is a risk that the data input into the algorithms could have errors, omissions, or imperfections, or that the algorithms do not operate as intended (generally referred to as "processing incidents"). Any decisions made in reliance on incorrect data or algorithms that do not operate as intended can expose Program Accounts to potential risks. Issues in the algorithm are often extremely difficult to detect and could go undetected for long periods of time or never be detected. These risks are mitigated by testing and human oversight of the algorithms and their output. We believe that the oversight and testing performed on our algorithms and their output will enable us to identify and address issues appropriately. However, there is no assurance that the algorithms will always work as intended. In general, we will not assess each Program Account individually, nor will we override the outcome of the algorithm with respect to any particular Program Account.

Not all processing incidents arising from operational failures, including those resulting from the mistakes of third parties, will be compensable by Strategic Advisers to clients, depending on the applicable facts and circumstances. Strategic Advisers maintains policies and procedures that address the identification and resolution of processing incidents, consistent with applicable standards of care, to ensure that clients are treated fairly when a processing incident has been detected. The determination of whether, and how, to address a processing incident is made by Strategic Advisers or its affiliates, in their sole discretion.

Processing incidents will be reviewed to determine whether there was a financial impact on a client's Program Account based on, among other things, the relevant investment strategy, and to evaluate the materiality of the impact. If we determine that a material financial impact has occurred, we will make an appropriate correction or otherwise reimburse the Program Account in an amount Strategic Advisers or its affiliates determines is appropriate based on all relevant circumstances. Typically, processing incidents that result in a financial impact of less than \$10 per Program Account are not considered material. Other examples of impact that could affect the performance of a Program Account but would likely not be material include impacts arising from computer, communications, data processing, network, cloud computing, backup, business continuity or other operating, information, or technology systems, including those we outsource to other providers, failing to operate as planned or becoming disabled, overloaded, or damaged as a result of a number of factors. These factors could include events that are wholly or partially beyond our control and could have a negative impact on our ability to conduct business activities. Though losses arising from operating, information, or technology systems failures could adversely affect the performance of a Program Account, such losses would likely not be reimbursable under Strategic Advisers' policies and procedures.

Past performance is not a guarantee of future returns. Investing in securities and other investments involves a risk of loss that a client should understand and be willing to bear.

Voting Client Securities

Strategic Advisers does not generally acquire authority for, or exercise, proxy voting on a client's behalf in connection with managing Program Accounts. Unless a client directs Strategic Advisers otherwise pursuant to the paragraph below, the client will receive proxy materials directly from the issuer of the security (or its service provider). Strategic Advisers will not advise clients on the voting of proxies. Clients must exercise any proxy voting directly.

Notwithstanding the information above, a client can direct Strategic Advisers to act as agent to vote proxies on the client's behalf for the funds and other securities held in Program Accounts. For Fidelity Funds, clients who make such a direction must instruct Strategic Advisers to vote proxies of a Fidelity Fund in the same proportion

as the vote of all other holders of such Fidelity Fund. For other securities, such clients must instruct Strategic Advisers to vote proxies pursuant to the directions provided by ISS, an unaffiliated third-party proxy advisory services provider.

Please note that, unlike general proxy votes, Strategic Advisers generally treats certain voluntary corporate actions as subject to the exercise of its discretion as an investment manager. Accordingly, Strategic Advisers will make decisions with respect to voluntary corporate actions directly as part of the investment management services it provides to Program Accounts. However, clients retain the right to make elections with respect to voluntary corporate actions if they so choose; if a client would like to make an election with respect to a security subject to a voluntary corporate action, the client will need to contact us to transfer the security out of the client's Program Account. In connection with this election, a client must acknowledge that Strategic Advisers is acting solely at the client's direction, and does not exercise discretion with respect to the voting of any proxy. Clients receive information about ISS' proxy voting policies in the summary of ISS' proxy voting guidelines available at [Fidelity.com/information](https://www.fidelity.com/information). In some instances, ISS will be unable to provide proxy voting directions, in which case Strategic Advisers will not vote such proxy because it does not have discretion to determine how proxies are voted. To obtain a copy of ISS' summary proxy voting guidelines or information on how investment proxies were voted, please contact a Fidelity representative. In addition, a client can request that Strategic Advisers act as agent for receipt of certain legally required communications, including prospectuses, annual and semiannual reports, and proxy materials for mutual funds that are not managed by FMRCo or an affiliate thereof, and other individual securities.

Clients should be aware that, to the extent that a Program Account holds a fractional share of an individual security, they will not be able to vote the fractional share; however, where Strategic Advisers is acting as proxy voting agent on the client's behalf, such fractional share can generally be voted. In addition, clients are not able to take any discretionary or voluntary corporate action with respect to any fractional share position.

CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGERS

Strategic Advisers has access to the relevant Program Account information, including Profile Information and, for accounts managed with tax-smart investing techniques, information on record with Strategic Advisers regarding the client's tax situation and the tax characteristics of the securities in the client's Program Account. The discretionary portfolio management services will be affected by incomplete or inaccurate information. If changes to a client's personal, financial, or tax situation occur, the client should promptly update their Profile Information online using the Program website.

CLIENT CONTACT WITH PORTFOLIO MANAGERS

Clients can visit the Program website at any time to access detailed information about their Program Accounts or to update their Profile Information. While Strategic Advisers can provide clients with information about the management of Program Accounts from time to time, Strategic Advisers does not typically meet with or communicate directly with Program clients.

ADDITIONAL INFORMATION

Custody

Clients must establish and maintain a brokerage account with FBS to participate in the Program, and NFS serves as the qualified custodian for Program Accounts. Clients should carefully review all statements and other communications received from NFS and FBS. NFS and FBS are broker-dealers and affiliates of Strategic Advisers.

Strategic Advisers is deemed to have custody under the Advisers Act because its affiliate NFS serves as qualified custodian for Program Accounts.

DISCIPLINARY INFORMATION

There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of Strategic Advisers' advisory business or the integrity of its management personnel.

Other Financial Industry Activities and Affiliations

Strategic Advisers is a wholly owned subsidiary of Fidelity Advisory Holdings LLC, which in turn is a wholly owned subsidiary of FMR LLC. FMR LLC is a Delaware limited liability company that, together with its affiliates and subsidiaries, is generally known to the public as Fidelity Investments or Fidelity. Various direct or indirect subsidiaries of FMR LLC are engaged in investment advisory, brokerage, banking, or insurance businesses. From time to time, Strategic Advisers and its clients will have material business relationships with the subsidiaries and affiliates of FMR LLC. In addition, the principal officers of Strategic Advisers serve as officers and/or employees of affiliated companies that are engaged in various aspects of the financial services industry.

Strategic Advisers is not registered as a broker-dealer, futures commission merchant, or commodity trading advisor, nor does it have an application pending to register as such. Strategic Advisers is registered with the U.S. Commodity Futures Trading Commission ("CFTC") under the Commodity Exchange Act of 1936, as amended ("CEA"), as a commodity pool operator ("CPO") and is a member of the National Futures Association ("NFA"). Certain personnel of Strategic Advisers, FBS, and NFS share premises and have common supervision. In addition, certain management persons of Strategic Advisers are registered representatives of FBS, a Strategic Advisers affiliate and a registered broker-dealer.

Strategic Advisers has, and its clients could have, a material relationship with the following affiliated companies:

Investment Companies and Investment Advisers

- Fidelity Management & Research Company LLC ("FMRCo"), a wholly owned subsidiary of FMR LLC, is a registered investment adviser under the Advisers Act. FMRCo provides investment management services, including to registered investment companies in the Fidelity group of funds and to clients of other affiliated and unaffiliated advisers. FMRCo acts as sub-advisor to Strategic Advisers in providing discretionary portfolio management to certain clients and provides Model Portfolio recommendations and environmental filtering services to Strategic Advisers in connection with Strategic Advisers' provision of discretionary portfolio management to certain clients. Strategic Advisers pays FMRCo an administrative fee for handling the business affairs of the registered investment companies advised by Strategic Advisers, and Strategic Advisers compensates FMRCo for making certain mutual funds available to managed account programs offered by Strategic Advisers. In addition, Strategic Advisers shares employees from time to time with FMRCo.
- Fidelity Institutional Wealth Adviser LLC ("FIWA"), a wholly owned subsidiary of FMR LLC, is a registered investment adviser under the Advisers Act. FIWA provides nondiscretionary investment management services and sponsors the Fidelity Managed Account Xchange[®] program, a turn-key asset management program made available to individual investors through financial intermediaries. Strategic Advisers provides Model Portfolio services to FIWA in connection with FIWA's services to its institutional and intermediary clients, and FIWA compensates Strategic Advisers for such services. In addition, Strategic Advisers shares employees from time to time with FIWA.
- FIAM LLC ("FIAM"), a wholly owned subsidiary of FIAM Holdings LLC, which in turn is wholly owned by FMR LLC, is a registered investment adviser under the Advisers Act and is registered with the Central Bank of Ireland. FIAM provides investment management services, including to registered investment companies in the Fidelity group of funds and to clients of other affiliated and unaffiliated advisers. Strategic Advisers

has sub-advisory agreements with FIAM for certain registered investment companies advised by Strategic Advisers. In addition, Strategic Advisers shares employees from time to time with FIAM.

- FMR Investment Management (UK) Limited ("FMR UK"), an indirect, wholly owned subsidiary of FMRCo, is a registered investment adviser under the Advisers Act, has been authorized by the U.K. Financial Conduct Authority to provide investment advisory and asset management services, and is registered with the Central Bank of Ireland. FMR UK provides investment management services, including to registered investment companies in the Fidelity group of funds and to clients of other affiliated and unaffiliated advisers. FIAM has sub-advisory agreements with FMR UK for certain registered investment companies advised by Strategic Advisers.
- Fidelity Management & Research (Japan) Limited ("FMR Japan"), a wholly owned subsidiary of FMRCo, is a registered investment adviser under the Advisers Act and has been authorized by the Japan Financial Services Agency (Kanto Local Finance Bureau) to provide investment advisory and discretionary investment management services. FMR Japan provides investment management services, including to registered investment companies in the Fidelity group of funds and to clients of other affiliated and unaffiliated advisers. FIAM has sub-advisory agreements with FMR Japan for certain registered investment companies advised by Strategic Advisers.
- Fidelity Management & Research (Hong Kong) Limited ("FMR Hong Kong"), a wholly owned subsidiary of FMRCo, is a registered investment adviser under the Advisers Act and has been authorized by the Hong Kong Securities & Futures Commission to advise on securities and to provide asset management services. FMR Hong Kong provides investment management services, including to registered investment companies in the Fidelity group of funds and to clients of other affiliated and unaffiliated advisers. FIAM has sub-advisory agreements with FMR Hong Kong for certain registered investment companies advised by Strategic Advisers.
- Fidelity Diversifying Solutions LLC ("FDS"), a wholly owned subsidiary of FMR LLC, is a registered investment adviser under the Advisers Act. FDS is registered with the CFTC under the CEA as a CPO and as a commodity trading advisor. FDS is a member of the NFA. FDS provides portfolio management services as an adviser and a CPO to registered investment companies, unregistered investment companies (private funds), and separately managed accounts. FDS acts as a sub-advisor to Strategic Advisers in providing discretionary portfolio management to certain clients.

Broker-Dealers

- Fidelity Distributors Company LLC ("FDC"), a wholly owned subsidiary of Fidelity Global Brokerage Group, Inc., which in turn is wholly owned by FMR LLC, is a registered broker-dealer under the Securities Exchange Act of 1934 (the "Exchange Act"). FDC acts as principal underwriter of business development companies and the registered investment companies in the Fidelity group of funds, and also markets those funds and other products advised by its affiliates to third-party financial intermediaries and certain institutional investors.
- National Financial Services LLC ("NFS"), a wholly owned subsidiary of Fidelity Global Brokerage Group, Inc., which in turn is wholly owned by FMR LLC, is a registered broker-dealer under the Exchange Act. NFS is a fully disclosed clearing broker-dealer that provides clearing, settlement, and execution services for other broker-dealers, including its affiliate FBS. Fidelity Capital Markets ("FCM"), a division of NFS, provides trade executions for Fidelity affiliates and other clients. Additionally, FCM operates CrossStream®, an alternative trading system that allows orders submitted by its subscribers to be crossed against orders submitted by other subscribers. FCM charges a commission to both sides of each trade executed in CrossStream. CrossStream is used to execute transactions for investment company and other clients. NFS provides transfer agent or subtransfer agent services and other custodial services to certain Fidelity clients.
- Kezar Trading, LLC, a registered broker-dealer and operator of two alternative trading systems ("ATS"), operates the Luminex ATS and the Level ATS, which allow orders submitted by subscribers to be crossed

against orders submitted by other subscribers. Kezar Markets, LLC, owns Kezar Trading, LLC. Fidelity Global Brokerage Group, Inc., and FMR Sakura Holdings, Inc., each a wholly owned subsidiary of FMR LLC, have membership interests in Kezar Markets, LLC, along with other members. Kezar Trading, LLC, charges a commission to both sides of each trade executed in the Luminex ATS and Level ATS. Luminex ATS and Level ATS are used to execute transactions for Fidelity affiliates' investment company and other advisory clients. NFS serves as a clearing agent for transactions executed in the Luminex ATS and Level ATS.

- Fidelity Brokerage Services LLC ("FBS"), a wholly owned subsidiary of Fidelity Global Brokerage Group, Inc., which in turn is wholly owned by FMR LLC, is a registered broker-dealer under the Exchange Act and provides brokerage products and services, including the sale of shares of registered investment companies in the Fidelity group of funds to individuals and institutions, including retirement plans administered by Fidelity affiliates, and acts as placement agent for certain privately offered investment funds advised by Strategic Advisers' affiliates. In addition, along with Fidelity Insurance Agency, Inc. ("FIA"), FBS distributes insurance products, including variable annuities, which are issued by Fidelity Investments Life Insurance Company ("FIL") and Empire Fidelity Investments Life Insurance Company® ("EFIL"), both Fidelity affiliates. FBS provides shareholder services to certain of Fidelity's clients. FBS is the introducing broker for managed accounts offered by Strategic Advisers and places orders for execution with its affiliated clearing broker, NFS.
- Digital Brokerage Services LLC ("DBS"), a wholly owned subsidiary of Fidelity Global Brokerage Group, Inc., which in turn is wholly owned by FMR LLC, is a registered broker-dealer under the Exchange Act. DBS operates a primarily digital/mobile application-based brokerage platform that enables retail investors to open brokerage accounts via the mobile application and purchase and sell equity securities, including shares of investment companies advised by FMRCo or its affiliates. DBS receives remuneration from FMRCo for expenses incurred in servicing and marketing FMRCo products.

Insurance Companies or Agencies

- FIL, a wholly owned subsidiary of FMR LLC, is engaged in the distribution and issuance of life insurance and annuity products that offer shares of registered investment companies managed by Fidelity affiliates.
- EFIL, a wholly owned subsidiary of FIL, is engaged in the distribution and issuance of life insurance and annuity products that offer shares of registered investment companies managed by Fidelity affiliates to residents of New York.
- FIA, a wholly owned subsidiary of FMR LLC, is engaged in the business of selling life insurance and annuity products of affiliated and unaffiliated insurance companies.

Banking Institutions

- Fidelity Management Trust Company ("FMTC"), a wholly owned subsidiary of FMR LLC, is a limited-purpose trust company organized and operating under the laws of the Commonwealth of Massachusetts that provides nondiscretionary trustee and custodial services to employee benefit plans and individual retirement accounts through which individuals can invest in affiliated or unaffiliated registered investment companies. FMTC also provides discretionary investment management services to institutional clients.
- Fidelity Personal Trust Company, FSB, a wholly owned subsidiary of Fidelity Thrift Holding Company, Inc., which in turn is wholly owned by FMR LLC, is a federal savings bank that offers fiduciary services that include trustee or co-trustee services, custody, principal and income accounting, investment management services, and recordkeeping and administration.

Limited Partnerships and Limited Liability Company Investments

Strategic Advisers provides discretionary investment management to partnerships and limited liability companies designed to facilitate acquisitions by mutual funds offered by Strategic Advisers. These funds are privately offered consistent with stated investment objectives. Strategic Advisers does not currently engage in borrowing, lending, purchasing securities on margin, short selling, or trading in commodities.

Participating Affiliate

Certain employees of Fidelity Strategic Advisers Ireland, Limited ("Strategic Ireland") can from time to time provide certain services, including but not limited to research, operations, and investment management support services for Strategic Advisers, which Strategic Advisers could use for its clients. Strategic Ireland is not registered as an investment adviser under the Advisers Act and is deemed to be a "Participating Affiliate" of Strategic Advisers (as this term has been used by the Securities and Exchange Commission's Division of Investment Management in various no-action letters granting relief from the Advisers Act's registration requirement for certain affiliates of registered investment advisers). Strategic Advisers deems Strategic Ireland and each of the Strategic Ireland Associated Employees as associated persons of Strategic Advisers within the meaning of Section 202(a)(17) of the Advisers Act. Strategic Ireland Associated Employees and Strategic Ireland through such employees can contribute to Strategic Advisers' research process and could have access to information concerning securities that are being selected for clients prior to the effective implementation of such selections. As a Participating Affiliate of Strategic Advisers, Strategic Ireland has agreed to submit itself to the jurisdiction of United States courts for actions arising under United States securities laws in connection with investment advisory activities conducted for Strategic Advisers' clients. Strategic Advisers maintains a list of Strategic Ireland Associated Employees whom Strategic Ireland has deemed associated persons, and Strategic Advisers will make the list available to its current U.S. clients upon request.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Strategic Advisers has adopted a Code of Ethics for Personal Trading (the "Code of Ethics"). The Code of Ethics applies to all officers, directors, employees, and other supervised persons of Strategic Advisers and requires that they place the interests of Strategic Advisers' clients above their own. The Code of Ethics establishes securities transaction requirements for all covered employees and their covered persons, including their spouses. More specifically, the Code of Ethics contains provisions requiring the following:

- (i) Standards of general business conduct reflecting the investment advisers' fiduciary obligations;
- (ii) Compliance with applicable federal securities laws;
- (iii) Employees and their covered persons to move their covered accounts to FBS unless an exception exists or prior approval has been granted;
- (iv) Reporting and review of personal securities transactions and holdings for persons with access to certain nonpublic information;
- (v) Prohibition of purchasing securities in initial public offerings unless an exception has been approved;
- (vi) Reporting of Code of Ethics violations; and
- (vii) Distribution of the Code of Ethics to all supervised persons, documented through acknowledgments of receipt.

Core features of the Code of Ethics generally apply to all Fidelity employees. The Code of Ethics also imposes additional restrictions and reporting obligations on certain advisory personnel, research analysts, and portfolio managers. Such restrictions and reporting obligations include (i) the preclearing of transactions in covered securities with limited exceptions, (ii) a prohibition on investments in limited offerings without prior approval, (iii) a prohibition on personal trading by a portfolio manager within seven days before or after a trade in any covered security of the same issuer by a fund or account managed by such portfolio manager except in limited circumstances, (iv) the reporting of transactions in covered securities on a quarterly basis with limited exceptions, (v) the reporting of securities accounts and holdings of covered securities at the time of hire and annually thereafter, and (vi) the disgorgement of profits from short-term transactions with limited exceptions. Violation of the Code of Ethics requirements can also result in the imposition of remedial action. The Code of Ethics will generally be supplemented by other relevant Fidelity policies, including the Policy on Inside Information, Rules for Broker-Dealer Employees, and other written policies and procedures adopted by Fidelity and Strategic Advisers. A copy of the Code of Ethics will be provided to any client or prospective client on request.

From time to time, Strategic Advisers and its related persons can buy or sell securities for themselves and recommend those securities to clients. The conflicts of interest involved in such activities are contemplated in the Code of Ethics and other relevant Fidelity policies. In particular, the Code of Ethics and other Fidelity policies are designed to make clear to Fidelity personnel that they should never place their personal interests ahead of Fidelity's clients in an attempt to benefit themselves or another party. The Code of Ethics and other Fidelity policies impose sanctions if these requirements are violated.

From time to time, in connection with our business, certain supervised persons obtain material nonpublic information that is usually not available to other investors or the general public. In compliance with applicable laws, Strategic Advisers has adopted a comprehensive set of policies and procedures that prohibits the use of material nonpublic information by investment professionals or any other employees and that limits the transactions that Strategic Advisers can implement for Program Accounts.

In addition, Fidelity has implemented a Corporate Gifts & Entertainment Policy intended to set standards for business entertainment and the giving or receiving of gifts, to help employees make sound decisions with respect to these activities, and to ensure that the interests of Strategic Advisers' clients come first. Similarly, to support compliance with applicable "pay-to-play" laws, Fidelity has adopted a Personal Political Contributions & Activities Policy that requires employees to preclear any political contributions and activities. Fidelity also has a Global Anti-Corruption Policy regarding commercial bribery and bribery of government officials that prohibits directly or indirectly giving, offering, authorizing, promising, accepting, or receiving any bribe, facilitation payment, kickback, or payoff (whether in cash or any other form) with the intent to improperly obtain or retain business or any improper advantage.

BROKERAGE PRACTICES

Broker Selection and Transactions in Program Accounts

Strategic Advisers has a duty to seek best execution for transactions in client accounts. Strategic Advisers will place trades for Program Accounts with affiliated or unaffiliated registered broker-dealers ("brokers") and may choose to execute an order using electronic channels (including broker-sponsored algorithms) or by manually working an order with a broker. In selecting brokers, Strategic Advisers may consider a range of factors deemed relevant in the context of a particular trade, including but not limited to price; costs; the size, nature, and type of the order; speed of execution; financial condition and reputation of the broker; broker-specific considerations (e.g., not all brokers are able to execute all types of trades); broker willingness to commit capital; our trader's assessment of whether and how closely the broker will follow our instructions; and confidentiality and the potential for information leakage.

As described above in Fees and Compensation, the Program's advisory fee includes the cost of commissions associated with transactions executed through affiliated brokers. As a result, most trades for Program Accounts that involve equity securities and other securities where commissions are charged will be executed with Strategic Advisers' affiliated broker, NFS.

However, Strategic Advisers has the authority to execute transactions with an unaffiliated broker (also referred to as "trading away") consistent with its duty to seek best execution. While the Program's advisory fee does not include the cost of commissions for transactions executed through unaffiliated brokers, Strategic Advisers or its affiliate is voluntarily assuming the cost of commissions for transactions executed by unaffiliated brokers. As a result, Program clients are not charged commissions for such transactions. Strategic Advisers and its affiliates reserve the right to stop assuming the cost of commissions associated with trading away, subject to prior notice to Program clients. The Program Fee does not cover transaction charges for securities where the counterparty imposes a markup, markdown, and/or dealer spread. The net price of the security will include these transaction charges and Program Accounts will bear these costs.

In seeking best execution for a transaction, Strategic Advisers will have no obligation to solicit competitive bids for each transaction and Strategic Advisers will not necessarily select the broker that charges the lowest available price or commission rate; however, Strategic Advisers believes that its policies, taking into consideration the factors stated above, are designed to result in transaction processing that is favorable to Program clients. Strategic Advisers conducts periodic reviews of trade execution. Although it is Strategic Advisers' policy to treat each client's account in a fair and equitable manner over time, there can be no assurance that all Program Accounts will receive the same execution and certain Program Accounts will experience a more or less favorable execution depending on market conditions.

Please see the Fees and Compensation section above for further information about Program Fees, brokerage commissions, and additional fees for transactions in a Program Account.

Trade Aggregation and Allocation

Strategic Advisers' policy is to treat each client's account in a fair and equitable manner over time when aggregating and allocating orders for the purchase and sale of securities. While Strategic Advisers is under no obligation to aggregate orders for Program Accounts, in general, Strategic Advisers will choose to aggregate trades for Program Accounts and/or aggregate Program Account trades with trades for other client accounts (including certain proprietary accounts of Strategic Advisers or its affiliates and Fidelity employee accounts managed by Strategic Advisers) when, in Strategic Advisers' judgment, aggregation is in the best interest of all clients involved and it is operationally feasible to do so. Orders are aggregated into a "block trade" to facilitate seeking best execution, to negotiate more favorable commission rates, or to allocate equitably among clients the effects of any market fluctuations that might have otherwise occurred had these orders been placed independently.

Aggregated orders are generally allocated on a pro rata basis among similarly situated client accounts participating in a block trade until the order is filled. Client accounts included in a block trade receive the same average price for the trade and shares are allocated according to the purchase and sale orders actually placed for each client account included in the block trade. Strategic Advisers can create multiple block trades for both buy and sell orders in the same security, and it is therefore possible that block trades will receive different prices depending on when the orders for each block trade are filled throughout the day. When a client account is not part of a block trade, that client account will receive a different price from the price obtained for Program Accounts that participate in the aggregated orders.

If Strategic Advisers does not complete an order in a single day (e.g., when an aggregate order for client accounts exceeds the available supply or to minimize market impact), the partially filled order will be allocated on a pro rata basis among client accounts in the block.

Strategic Advisers has adopted trade allocation policies for managing client accounts, including Program Accounts, designed to achieve fairness and not to purposefully disadvantage comparable client accounts over time when allocating purchases and sales.

Cross Trades

To the extent permitted by law and applicable policies and procedures, Strategic Advisers can (but is not obligated to) execute "agency cross trades" for Program Accounts. Agency cross trades are trades in which Strategic Advisers, or any person controlling, controlled by, or under common control with Strategic Advisers, acts as both investment adviser and broker for a client, and as broker for the party or parties on the other side of the trade. Agency cross trades will be executed in accordance with Section 206(3) of the Advisers Act, requiring written consent, confirmations of transactions, annual reporting, and compliance procedures.

To the extent permitted by law and applicable policies and procedures, Strategic Advisers can (but is under no obligation to) execute "advisor cross trades" for Program Accounts when Strategic Advisers believes such trades are in the best interest of all clients involved. Advisor cross trades are trades in which Strategic Advisers, or an affiliate, acts as investment adviser to both clients involved in the trade. An advisor cross trade will be

facilitated between client accounts either directly or through a broker-dealer, including FBS or NFS, and the relevant crossing value will be determined based on one or more third-party pricing services, actual market bids, and/or closing prices as reflected on a national securities exchange. Neither Strategic Advisers nor its affiliates will receive transaction-based compensation for advisor cross trades.

There can be no assurance that agency or advisor cross trades will be executed, or that such transactions will be executed in a manner that is most favorable to each Program Account that is a party to such transaction. Not all Program Accounts participate in cross trades, and a client may opt out of cross trading by contacting a Fidelity representative. Cross trades can be beneficial to clients by reducing transaction costs, and Program Accounts excluded from cross trading could miss such potential benefits. Strategic Advisers and its affiliates will have a potentially conflicting division of loyalties and responsibilities regarding both parties to a crossing transaction, including with respect to the decision to enter into such transactions and the valuation and pricing of such transactions. Strategic Advisers has developed policies and procedures relating to such transactions and conflicts.

Account Transaction Information

When Strategic Advisers trades in a Program Account, unless Fidelity Personal Trust Company, FSB, is acting as trustee or co-trustee with respect to the Program Account, clients will receive a confirmation of such transaction from NFS, except with respect to automatic investments, automatic withdrawals, dividend reinvestments, and transactions that involve the core Fidelity money market fund where a client's account statement serves in lieu of a confirmation. Clients will receive statements from NFS that will provide holdings and transaction information, including trades, contributions, withdrawals, advisory fees, and estimated gain/loss and tax basis information. Statements and confirmations are also available online at Fidelity.com and by enrolling in the electronic delivery program. Clients should carefully review all statements and other communications received from FBS and NFS. Clients will also receive a prospectus for any new mutual fund or ETP not previously held, unless the client has elected to have Strategic Advisers act as agent for the receipt of any non-Fidelity prospectuses. The routing details of a particular order will be provided on request, and an explanation of order routing practices will be provided on an annual basis. In addition, from time to time, Fidelity will provide aggregated trade execution data to clients and prospective clients.

Soft Dollars

Strategic Advisers does not have a soft dollar program and therefore does not consider the provision of research or brokerage as a criterion for broker selection.

Client-Directed Brokerage

Program Accounts are not available for brokerage activities outside of the activities directed by Strategic Advisers, including but not limited to margin trading or trading of securities by a client or any of the client's designated agents.

Review of Accounts

Client Contact and Review of Personal Financial Situation

We will contact Program clients at least annually to evaluate whether there have been any changes to their financial situation that could affect their Profile Information or the Program Services, including whether they wish to impose any reasonable restrictions on the management of the Program Account or reasonably modify any existing restrictions (the "Annual Review Process"). Clients should provide updated Profile Information any time there is a change to their goals, time horizon, tax situation, risk tolerance, or personal financial situation, even outside of the Annual Review Process. If we do not hear from a client during the Annual Review Process, we will update client information based on known information (e.g., client's age, time horizon, and other date-relative elements of the client's Profile Information), but we will otherwise assume that the client's Profile Information has not changed. In some cases, the changes to this updated information will cause us to

determine that a Strategy account is no longer appropriate for the client. In these instances, we will notify the client and begin the process of terminating the client's participation in the Program.

Clients will receive prompt confirmations from NFS for any transactions in their Program Accounts; however, with respect to automatic investments, automatic withdrawals, dividend reinvestments, and transactions that involve the core Fidelity money market fund, a client's account statement serves in lieu of a confirmation. In addition, clients electronically receive statements from NFS that detail all holdings and transaction information, including trades, additions, withdrawals, shifts in investment allocations, advisory fees, and estimated gain/loss and tax basis information. Statements and confirmations are also available online at Fidelity.com. Clients should carefully review all statements and other communications received from FBS and NFS.

Strategic Advisers makes available account performance on a password-protected website. At least quarterly, we will also send each client a reminder to notify us of any change in their financial situation, investment objectives, or to impose reasonable restrictions on the management of their Program Accounts or reasonably modify any existing restrictions. Clients can access and update the Profile Information they have provided to us on the Program website.

To assist in the evaluation of performance, clients will have access to information about the trading activity in their Program Account as well as information about the performance of their Program Accounts on a pretax basis. Pretax Program Account performance is calculated consistent with industry standards. In addition, clients will typically receive performance information comparing their Program Accounts with the performance of relevant industry standard indexes. Clients with taxable Program Accounts will also be provided with performance information on an after-tax basis. After-tax Program Account performance is based on the pretax performance of the Program Account, and on an evaluation of the potential tax consequences of trading activity, dividends, income, and distributions in the Program Account. This after-tax performance information is based on information provided by the client about the client's tax situation, the tax basis information related to the securities in the Program Account, and certain assumptions about the potential tax consequences of trading activity in the Program Account. Detailed information about the methodology and assumptions, and their related risks and limitations, used in calculating after-tax performance of a Program Account is provided on the Program website. While performance information is reviewed by Strategic Advisers for accuracy and compliance with applicable procedures, performance information is not reviewed or approved by a third party.

Clients invested in the Environmental Focus Strategy will have access to certain sustainable investment reporting provided by FMRCo. This information is based on holdings of a Model Portfolio and a client's Program Account. Such information will contain or be based on data compiled from third-party sources that FMRCo believes to be reliable, but neither FMRCo nor Strategic Advisers can guarantee the accuracy of any such third-party information. This information will be limited by the fact that issuers in the investment universe are not subject to reporting requirements for some of the Environmental Factors that FMRCo evaluates as part of its proprietary methodology. Sustainable investment reporting is provided for informational purposes only and should not be relied on by clients when making investment decisions or for any other purposes.

Ongoing Review and Adjustments of Program Accounts

On a daily basis, Strategic Advisers will evaluate a Program Account with respect to a variety of factors to determine whether the account could benefit from trading that day. Common reasons clients can experience trading in their Program Accounts include changes in the model or index, market fluctuations, tax management opportunities, and client-requested activities, such as cash deposits or withdrawals.

Please note that Strategic Advisers uses the prior trading day's closing prices in determining whether a Program Account requires trading on a given day, and in general does not attempt to conduct ongoing intraday Program Account evaluations, nor attempt to time intraday price fluctuations in its decisions to buy or sell securities. Strategic Advisers does not anticipate that each Program Account will be traded each day.

Each of the securities purchased in a Program Account will appear on a client's account statement. Securities selected for Program Accounts can be individually tailored based on a client's existing holdings and unique

financial situation and, where applicable, on the tax attributes of the assets in a Program Account. A client can expect that the securities that compose their Program Account can vary, perhaps significantly, from the securities purchased for another client's Program Account managed using the same Strategy.

There can be instances where we need to place a do-not-trade restriction on one or more Program Accounts, including when a client requests a security be transferred from a Program Account, when processing a trade correction, when we need to comply with a court order, when a client asks us to process a withdrawal and keep the proceeds from the sale of securities used to fund the withdrawal in the account until the client provides further instructions for the transfer of the proceeds, or when we need additional information from a client. For the period when a do-not-trade restriction is in effect, we will not trade or otherwise manage the Program Account until the do-not-trade restriction has been removed.

Clients have periodic performance summaries or similar reports made available to them that detail the performance of a client's Program Account(s) and summarize the market activity during the period. Industry standards are applied when calculating performance information. Strategic Advisers also makes available account performance information on a password-protected website.

Client Referrals and Other Compensation

Strategic Advisers and its affiliates are compensated for providing services, including for investment management, distribution, transfer agency, servicing, and custodial services, to certain Fidelity and non-Fidelity mutual funds, ETPs, and other investments in which Program Accounts are invested. These affiliates include FMRCo and its affiliates as the investment adviser for the Fidelity Funds; FDC as the underwriter of the Fidelity Funds; and Fidelity Investments Institutional Operations Company LLC ("FIIOC") as transfer agent for the Fidelity Funds, servicing agent for non-Fidelity mutual funds, and recordkeeper of certain workplace savings plans. Strategic Advisers and its affiliates also receive compensation and other benefits in connection with portfolio transactions executed on behalf of the Fidelity and non-Fidelity mutual funds, ETPs, and other investments. FMRCo and its affiliates also obtain brokerage or research services, consistent with Section 28(e) of the Exchange Act, from broker-dealers in connection with the execution of the Fidelity Funds' portfolio security transactions.

FBS and NFS receive compensation for executing portfolio transactions and providing, among other things, clearance, settlement, custodial, and other services to Fidelity and non-Fidelity mutual funds, ETPs, and other investments, and NFS provides securities lending agent services to certain Fidelity Funds for which it receives compensation. FBS, NFS, and FIIOC also offer Fidelity's mutual fund platform, FundsNetwork®, and provide shareholder and other services (including, for a limited number of participants on the platform, the sharing of certain aggregated data regarding exchange-traded fund holdings in Program Accounts) to participating mutual funds and ETPs (or their sponsors) for which FBS, NFS, and FIIOC receive compensation, including with respect to those mutual funds in which Program Accounts are invested. Neither FBS nor NFS receives any compensation in connection with directing equity trades for Program Accounts to market makers for execution. We can execute trades through alternative trading systems or national securities exchanges, including ones in which a Fidelity affiliate has an ownership interest, such as Members Exchange, a registered national securities exchange. Any decision to execute a trade through an alternative trading system or exchange in which a Fidelity affiliate has an ownership interest would be made in accordance with applicable law, including best execution obligations. For trades placed on certain national securities exchanges, including ones in which a Fidelity affiliate has an ownership interest, Fidelity could receive exchange rebates from such trades for Program Accounts, and these rebates will be subject to the Credit Amount (as described in "Fees and Compensation") and will be allocated, pro rata based on assets, among client Program Accounts. The compensation described above that is retained by Strategic Advisers or its affiliates as a direct result of investments by the Program Accounts in Fidelity and non-Fidelity mutual funds and ETPs will be included in the Credit Amount, which reduces the Gross Advisory Fee. However, to the extent that Strategic Advisers or its affiliates, including FBS, NFS, or FIIOC, receive compensation that is neither a direct result of, nor directly derived from, investments by the Program Accounts, such compensation is not included in the Credit

Amount, does not reduce the Gross Advisory Fee, and will be retained by Strategic Advisers or affiliates. Receipt of compensation in addition to the Gross Advisory Fee creates a financial incentive for Strategic Advisers and its affiliates to select investments that will increase such compensation. Strategic Advisers seeks to address this financial conflict of interest through the application of the Credit Amount, which will reduce the Gross Advisory Fee, as applicable, and through personnel compensation arrangements (including those of Strategic Advisers' investment professionals and Fidelity representatives) that are not differentiated based on the investments or share classes selected for Program Accounts. Strategic Advisers and its affiliates have also implemented processes reasonably designed to prevent the receipt of compensation from affecting the nature of the advice provided to Program Accounts.

See "Fees and Compensation" for additional information.

Client referrals are provided by affiliated entities, including FBS or other affiliates, pursuant to referral agreements where applicable. Additionally, Strategic Advisers refers clients to other independent investment advisers in connection with a referral program in which such independent investment advisers participate for a fee payable to Strategic Advisers.

Financial Information

Strategic Advisers does not solicit prepayment of client fees. Strategic Advisers is not aware of any financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients.
